

of food products. In addition, FSIA will promote the activities of the Codex Alimentarius Commission to bring about standardization of food safety requirements and become a forum for scientific discussion relevant to food safety standards in the Americas. In this way, it will encourage and support development of science-based agreements that strengthen national and local economies.

Conclusion

The FSIA will help establish working relationships among collaborating countries through regular interaction of academic researchers and educators, government regulators, and food safety professionals. Enhancing and fostering these contacts are critically important in addressing regional food safety concerns and improving understanding about requirements for imported and exported products.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that the public and in particular minorities, women, and persons with disabilities, are aware of this notice, FSIS will announce it on-line through the FSIS Web page located at http://www.fsis.usda.gov/regulations/2005_Notices_Index/Index.asp. FSIS also will make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls, and other types of information that could affect or would be of interest to constituents and stakeholders.
