

permit U.S. Institute staff to evaluate how well the roster program is performing to help users find appropriate practitioners. Affected Entities: Entities potentially affected by this action are individuals who use the roster search system. Burden Statement: It is estimated that the annual national public burden and associated costs will be approximately 17 hours and \$663, respectively. These values were calculated assuming that on average: (a) Users will require four minutes to complete the questionnaire; (b) there will be 250 follow-up evaluations administered each year; and (c) searchers are asked to complete this questionnaire once per search. Cost burden estimates assume: (a) There are no capital or start-up costs for respondents, and (b) respondents' time is valued at \$39/hr.

Program Support and System Design Services

The U.S. Institute provides leadership and assistance to agencies/organizations developing collaborative problem solving and dispute resolution programs and systems. Program development and dispute system design services include assistance with planning, developing, designing, implementing, evaluating, and/or refining federal environmental conflict resolution programs, systems for handling administrative disputes, or approaches for managing environmental decision making (e.g., with processes under the National Environmental Policy Act (NEPA)).

(11) Program Support and System Design Services—Questionnaire for Agency Representatives and Key Participants (annual survey for length of project); New collection request; Abstract: Agency representatives and key project participants who request and receive U.S. Institute program support and system design services will be asked to complete a voluntary questionnaire containing six questions. The questionnaire will require fill-in-the blank and open-ended responses. Affected Entities: Entities potentially affected by this action are individuals who benefit from program support and system design services from the U.S. Institute. Burden Statement: It is estimated that the annual national public burden and associated costs will be approximately six hours and \$234, respectively. These values were calculated assuming that on average: (a) Agency representatives or key project participants require six minutes to complete the questionnaire; (b) there will be 60 responses each year; and (c) on average three agency representatives/key participants are involved in each

initiative. Cost burden estimates assume: (a) There are no capital or start-up costs for respondents, and (b) respondents' time is valued at \$39/hr.

NUCLEAR REGULATORY COMMISSION

Draft Regulatory Guide: Issuance, Availability Public Workshop

The U.S. Nuclear Regulatory Commission (NRC) has issued for public comment a draft revision to an existing guide in the agency's Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

The draft Revision 1 of Regulatory Guide 1.188, entitled "Standard Format and Content for Applications To Renew Nuclear Power Plant Operating Licenses," is temporarily identified by its task number, DG-1140, which should be mentioned in all related correspondence. Like its predecessor, the proposed revision describes a method that the NRC staff finds acceptable for complying with the NRC's regulatory requirements in title 10, part 54, of the *Code of Federal Regulations* (10 CFR part 54), "Requirements for Renewal of Operating Licenses for Nuclear Power Plants" (commonly known as the license renewal rule). Specifically, 10 CFR part 54 specifies the information that a nuclear power plant licensee must include in its application to renew an operating license issued by the NRC.

The NRC initially issued this guide as Regulatory Guide 1.188, dated July 2001, after soliciting and resolving public comments on three draft regulatory guides (DG-1104 in August 2000, DG-1047 in August 1996, and DG-1009 in December 1990). As such, Regulatory Guide 1.188 incorporated lessons learned from the review of license renewal applications and Owners Group topical report reviews. The guide also incorporated relevant information gleaned from developing the "Standard Review Plan for the Review of License Renewal Applications for Nuclear Power Plants" (NUREG-1800),¹ and the "Generic Aging Lessons Learned (GALL) Report" (NUREG-1801), as well as public comments received on those documents. (The staff summarized those comments in NUREG-1739, "Analysis of Public Comments on the Improved License Renewal Guidance Documents.")

Since the NRC initially published Regulatory Guide 1.188, the Nuclear Energy Institute (NEI) has developed Revision 5 of NEI 95-10, "Industry Guideline for Implementing the Requirements of 10 CFR part 54—The License Renewal Rule," dated January

2005.² The NRC staff has reviewed that document and found that, with the exceptions discussed in Section C, "Regulatory Position," of Draft Regulatory Guide DG-1140, Revision 5 of NEI 95-10 provides guidance that the staff considers acceptable for use in implementing the license renewal rule.

The NRC staff is soliciting stakeholder comments on Draft Regulatory Guide DG-1140 and/or Revision 5 of NEI 95-10, and specifically on any inconsistency or incompatibility between the guidance in these documents and the NRC guidance set forth in NUREG-1800 and NUREG-1801. Toward that end, the NRC is also announcing a public workshop to gather public comments on the revised documents. The workshop is scheduled for March 2, 2005, and will be held in the Commissions' Hearing Room, Room O-1G16, at the NRC's headquarters in Rockville, Maryland. For further details and the workshop agenda, see the related meeting notice, which will be available on the NRC's public Web site at <http://www.nrc.gov/public-involve/public-meetings/meeting-schedule.html>.

The NRC staff anticipates that the workshop will give participants an opportunity to ask questions, obtain further information, offer comments and opinions, and otherwise facilitate the formulation and preparation of written comments for NRC staff consideration of the revised license renewal guidance documents. To ensure that the staff records all stakeholder input, the proceedings of the workshop will be transcribed and the NRC staff will prepare a summary report to categorize the comments.

Comments on Draft Regulatory Guide DG-1140 and/or Revision 5 of NEI 95-10 may be submitted in writing or in electronic form. Please mention DG-1140 in the subject line of your comments. All comments should include supporting justification in enough detail for the NRC staff to evaluate the need for changes in the

guidance, as well as references to the operating experience, industry standards, or other relevant reference materials that provide a sound technical basis for such changes. Editorial and style comments are not necessary because the NRC staff anticipates the need to edit and reformat the guidance documents before issuing them in final form.

Comments Draft Regulatory Guide DG-1140 and/or Revision 5 of NEI 95-10 will be made available to the public in their entirety in the NRC's Agencywide Documents Access and Management System (ADAMS). Personal information will not be removed from your comments. You may submit comments by any of the following methods.

Mail comments to: Rules and Directives Branch, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

E-mail comments to: NRCREP@nrc.gov. You may also submit comments via the NRC's rulemaking Web site at <http://ruleforum.llnl.gov>. Address questions about our rulemaking Web site to Carol A. Gallagher (301) 415-5905; e-mail CAG@nrc.gov.

Fax comments to: Rules and Directives Branch, Office of Administration, U.S. Nuclear Regulatory Commission at (301) 415-5144.

Requests for technical information about Draft Regulatory Guide DG-1140 may be directed to Mr. M.P. Lintz, at (301) 415-4051 or via e-mail to MPL2@nrc.gov.

Comments would be most helpful if received by March 31, 2005. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Although a time limit is given, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549,

Extension: Regulation S-X, OMB Control No. 3235-0009, SEC File No. 270-3

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) the Securities

and Exchange Commission ("Commission") is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Regulation S-X sets forth the form and content of, and requirements for, financial statements required to be filed as a part of registration statements under the Securities Act of 1933, registration statements filed under section 12, annual or other reports filed under section 13 and 15(d) and proxy and information statements filed under section 14 of the Securities Exchange Act of 1934, registration statements and annual reports filed under the Public Utility Holding Company Act of 1935 and registration statements and shareholder reports filed under the Investment Company Act of 1940. Regulation S-X is assigned one burden hour for administrative convenience because it simply prescribes the disclosure that must appear in other filings under the federal securities laws.

Written comments are invited on: (a) Whether this collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collections of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

Please direct your written comments to R. Corey Booth, Director/Chief Information Officer, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549.

Dated: January 26, 2005.

SECURITIES AND EXCHANGE COMMISSION

Issuer Delisting; Notice of Application of Carmel Container Systems Ltd. To Withdraw Its Ordinary Shares, NIS 1.0 Par Value per Share, From Listing and Registration on the American Stock Exchange LLC File No. 1-09274

January 27, 2005.

On December 1, 2004, Carmel Container Systems Ltd., an Israeli corporation ("Issuer"), filed an application with the Securities and Exchange Commission ("Commission"), pursuant to section 12(d) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 12d2-2(d) thereunder,² to withdraw its ordinary shares, NIS 1.0 par value per share ("Security"), from listing and registration on the American Stock Exchange LLC ("Amex" or "Exchange").

The Board of Directors ("Board") of the Issuer approved a resolution on November 7, 2004 to withdraw the Issuer's Security from listing on the Amex. In making the decision to withdraw its Security from the Amex, the Board cited the following reasons: (i) The limited number of holders of the Security; (ii) exceptionally low trading volume in the Security; and (iii) the burden inherent in continuing to be listed and registered (including, for example, the necessity of satisfying reporting obligations and Sarbanes-Oxley Act requirements) against the benefits of the Security being listed on the Amex and registered under the Act.

The Issuer stated in its application that it has met the requirements of Amex Rule 18 by complying with all applicable laws in effect in Israel, in which it is incorporated, and with the Amex's rules governing an issuer's voluntary withdrawal of a security from listing and registration.

The Issuer's application relates solely to the withdrawal of the Security from listing and registration under section 12(b) of the Act³ and shall not affect its obligation to be registered under section 12(g) of the Act.⁴

Any interested person may, on or before February 22, 2005, comment on the facts bearing upon whether the application has been made in accordance with the rules of the Amex, and what terms, if any, should be imposed by the Commission for the protection of investors. All comment letters may be submitted by either of the following methods:

¹ 15 U.S.C. 78j(d).

² 17 CFR 240.12d2-2(d).

³ 15 U.S.C. 78j(b).
