SUPPLEMENTARY INFORMATION:

I. Abstract

The "Survey of International Air Travelers" program, administered by the Office of Travel & Tourism Industries (OTTI) of the International Trade Administration, provides the sole source of the data needed to estimate international travel and passenger fare exports and imports, *i.e.*, trade balance, for the United States. This Survey program supports the U.S. Department of Commerce, Bureau of Economic Analysis' (BEA) mandate to collect, analyze and report information used to calculate the Gross Domestic Product (GDP) and the Travel & Tourism Satellite Account for the United States. The Survey program contains the core data that is analyzed and communicated by OTTI with other government agencies, associations and businesses that share the same objective to increase U.S. international travel exports. To assist OTTI assesses the economic impact of international travel on state and local economies, provides visitation estimates, and identifies traveler and trip characteristics. The U.S. Department of Commerce assists travel industry businesses seeking to develop target marketing to increase international travel and passenger fare exports for the country as well as outbound travel. The Survey program provides the only estimates of nonresident visitation to the states and cities within the U.S., as well as U.S. resident travel abroad.

II. Method of Collection

The collection is on U.S. and foreign flag airlines that voluntarily agree to allow us to survey their passengers on flights departing from the U.S. Additional surveys are also collected at U.S. departure airports.

III. Data

SUPPLEMENTARY INFORMATION:

I. Abstract

The Trade Fair Certification (TFC) program is a service of the U.S. Department of Commerce (DOC) that provides DOC endorsement and support for high quality international trade fairs that are organized by private-sector firms. The TFC program seeks to broaden the base of U.S. firms, particularly new-to-market companies by introducing them to key international trade fairs where they can achieve their export objectives. Those objectives include one or more of the following: Direct sales; identification of local agents or distributors; market research and exposure; and joint venture and licensing opportunities for their products and services. The objective of the application is to make a determination that the trade fair organizer is qualified to organize and manage U.S. exhibitions at a foreign trade show, and to ensure that the show is a good marketing opportunity for U.S. companies.

II. Method of Collection

Form ITA-4100P is sent by request to organizers of international trade fairs.

SUPPLEMENTARY INFORMATION:

I. Abstract

The International Trade Administration (ITA) sponsors approximately 120 overseas trade fair events each fiscal year. Trade fairs involve U.S. firms exhibiting their goods and services at American pavilions at internationally recognized events worldwide. The Product Characteristics—Design Check-Off List seeks from participating U.S. firms information on the physical nature, power (utility) and graphic requirements of the products and services to be displayed, in order to ensure the availability of utilities for active product demonstrations. This form also allows U.S. firms to identify special installation requirements that can be critical to the proper placement and hookup of their equipment and/or graphics. Without the timely and accurate submission of the Form ITA-426P, Product Characteristics—Design Check-Off Lists, ITA would be unable to provide a pavilion facility that would effectively support the sales/marketing and presentation objectives of the U.S. participants. Without such support, program productivity and utility would diminish, and declining program participation in this type of ITA activity by U.S. firms would result.

II. Method of Data Collection

Form ITA-426P is sent by request to U.S. firms. Responding firms complete the form and forward it to the Department of Commerce project officer several weeks prior to the beginning of the event.

III. Data
