SUPPLEMENTARY INFORMATION: The RBOG program is authorized under section 306 of the Consolidated Farm and Rural Development Act (CONACT) (7 U.S.C. 1926(a)(11)). The Rural Development State Offices administer the RBOG program on behalf of RBS at the State level. The primary objective of the program is to improve the economic conditions of rural areas. Assistance provided to rural areas under this program may include technical assistance for business development and economic development planning. A total of \$990,000 of non-earmarked funds is available for the RBOG program for FY 2006. To ensure that a broad range of communities have the opportunity to benefit from the available funds, no grant will exceed \$50,000, unless it is a multi-State project where funds may not exceed \$150,000. Pursuant to the Consolidated Appropriations Act for 2006 (Public Law 108-447), a total of \$990,000 has been earmarked for Native Americans and a total of \$990,000 for Empowerment Zones, Enterprise Communities, and Rural Economic Area Partnerships. There is no project dollar amount limitation on applications for earmarked funds. Awards are made on a competitive basis using specific selection criteria contained in 7 CFR part 4284, subpart G. Information required to be in the application package are contained in 7 CFR part 4284, subpart G. The State Director may assign up to 15 discretionary points to an application, and the Agency Administrator may assign up to 20 additional discretionary points based on geographic distribution of funds, special importance for implementation of a strategic plan in partnership with other organizations, or extraordinary potential for success due to superior project plans or qualifications of the grantee. To

ensure the equitable distribution of funds, two projects from each State that score the greatest number of points based on the selection criteria and discretionary points will be considered for funding. Applications will be tentatively scored by the State Offices and submitted to the National Office for final review and selection.

The National Office will review the scores based on the grant selection criteria and weights contained in 7 CFR part 4284, subpart G. All applicants will be notified by RBS of the Agency's decision on the awards.

In accordance with the Paperwork Reduction Act of 1995, the information collection requirement contained in this Notice is approved by the Office of Management and Budget (OMB) under OMB Control Number 0570-0024.

SUPPLEMENTARY INFORMATION: The passenger transportation portion of the RBEG program is authorized by section 310B(c)(2) of the Consolidated Farm and Rural Development Act (CONACT) (7 U.S.C. 1932(c)(2)). The RBEG program is administered on behalf of RBS at the State level by the Rural Development State Offices. The primary objective of the program is to improve the economic conditions of rural areas. Assistance provided to rural areas under this program may include on-site technical assistance to local and regional governments, public transit agencies, and related nonprofit and for-profit organizations in rural areas; the development of training materials; and the provision of necessary training assistance to local officials and agencies in rural areas.

Awards under the RBEG passenger transportation program are made on a competitive basis using specific selection criteria contained in 7 CFR part 1942, subpart G, and in accordance with section 310B(c)(2) of the CONACT. That subpart also contains the information required to be in the application package. For the FRNAT grant, at least 75 percent of the benefits of the project must be received by members of Federally Recognized Tribes. The project that scores the greatest number of points based on the selection criteria and Administrator's points will be selected for each grant. Preapplications will be tentatively scored by the State Offices and submitted to the National Office for review, final scoring, and selection.

To be considered "national," a qualified organization is required to provide evidence that it operates in multi-State areas. There is not a requirement to use the grant funds in a multi-State area. Under this notice, grants will be made to qualified, private, non-profit organizations for the provision of technical assistance and training to rural communities for the purpose of improving passenger transportation services or facilities. Public bodies are not eligible for passenger transportation RBEG grants.

The information collection requirements contained within this Notice have received approval by the Office of Management and Budget (OMB) under OMB Control Number 0570-0022 (7 CFR part 1942, subpart G).

Fiscal Year 2006 Preapplications Submission

Each application received in a Rural Development State Office will be reviewed to determine if this application is consistent with the eligible purposes contained in section 310B(c)(2) of the CONACT. Each selection priority criterion outlined in 7 CFR part 1942, subpart G, section 1942.305(b)(3), must be addressed in the application. Failure to address any of the criteria will result in a zero-point score for that criterion and impact the overall evaluation of the application. Copies of 7 CFR part 1942, subpart G, will be provided to any interested applicant making a request to a Rural Development State Office listed in this notice. All projects to receive technical assistance through these passenger transportation grant funds are to be identified when the preapplications are submitted to the Rural Development State Office. Multiple project preapplications must identify each individual project, indicate the amount of funding requested for each individual project, and address the criteria as stated above for each individual project. For multiple-project preapplications, the average of the individual project scores will be the score for that application.

All eligible preapplications, along with tentative scoring sheets and the Rural Development State Director's recommendation, will be referred to the National Office no later than May 25, 2006, for final scoring and selection for an award.

The National Office will score preapplications based on the grant selection criteria and weights contained in 7 CFR part 1942, subpart G and will select a grantee subject to the grantee's satisfactory submission of a formal application and related materials in the manner and timeframe established by RBS in accordance with 7 CFR part 1942, subpart G. It is anticipated that the grantees will be selected by July 7, 2006. All applicants will be notified by RBS of the Agency's decision on the awards.

(Not all

prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

The Household Water Well System (HWWS) Grant Program has been

established to help individuals with low to moderate incomes finance the costs of household water wells that they own or will own. The HWWS Grant Program is authorized under section 6012 of the Farm Security and Rural Investment Act of 2002 (The Act), Public Law 107-171. The Act authorizes the USDA Rural Development through the Rural Utilities Service to make grants to qualified private non-profit organizations to establish lending programs for household water wells.

As the grant recipients, non-profit organizations will receive HWWS grants to establish lending programs that will provide water well loans to individuals. The individuals, as loan recipients, may use the loans to construct, refurbish, and service their household well systems. A loan may not exceed \$8,000 and will have a term up to 20 years at a one percent annual interest rate.

B. Background

The USDA Rural Development supports the sound development of rural communities and the growth of our economy without endangering the environment. The USDA Rural Development provides financial and technical assistance to help communities bring safe drinking water and sanitary, environmentally sound waste disposal facilities to rural Americans in greatest need.

A central water system may not be the only or best solution to drinking water problems. Distance or physical barriers make public central water systems expensive in remote areas. A significant number of geographically isolated households without water service might require individual wells rather than connections to new or existing community systems. The goal of the USDA Rural Development is not only to make funds available to those communities most in need of potable water but also to ensure that facilities used to deliver drinking water are safe and affordable. There is a role for private wells in reaching this goal.

C. Purpose

The purpose of the HWWS Grant Program is to provide funds to non-profit organizations to assist them in establishing loan programs from which individuals may borrow money for household water well systems. Applicants must show that the project will provide technical and financial assistance to eligible individuals to remedy household well problems. Priority will be given to the non-profit organizations that:

1. Demonstrate experience in promoting safe, productive uses of
