Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day scoping comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Responsible Official: Deborah L.R. Austin, Forest Supervisor, Lolo National Forest, Building 24—Fort Missoula, Missoula, MT 59804, is the responsible official. In making the decision, the responsible official will consider comments, responses, disclosure of environmental consequences, and applicable laws, regulations, and policies. The responsible official will state the rationale for the chosen alternative in the Record of Decision.

Dated: February 13, 2006.

Deborah L.R. Austin,
Forest Supervisor.
