EPA has established a public docket for this ICR under Docket ID Number EPA-HQ-OECA-2006-0718, which is available for online viewing at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket Center is (202) 566-1927.

Use EPA's electronic docket and comment system at <http://www.epa.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at www.regulations.gov, as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: NESHAP for the Manufacture of Amino/Phenolic Resins (Renewal).

ICR Numbers: EPA ICR Number 1869.05; OMB Control Number 2060-0434.

ICR Status: This ICR is scheduled to expire on May 31, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The National Emission Standards for Hazardous Air Pollutants

(NESHAP) for the Manufacture of Amino/Phenolic Resins (40 CFR part 63, subpart OOO) were proposed on December 14, 1998, and promulgated on January 20, 2000.

The NESHAP standard required initial notification, performance tests, and periodic reports. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports and records are essential in determining compliance and are required, in general, of all sources subject to NESHAP.

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintain reports, and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 63, subpart OOO as authorized in Section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined not to be private.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average approximately 293 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Manufacturers of amino/phenolic resins.

Estimated Number of Respondents: 40.

Frequency of Response: On occasion, initially, and semiannually.

Estimated Total Annual Hour Burden: 24,044.

Estimated Total Costs: \$1,537,017, which includes \$0 annualized Capital Startup costs, \$16,000 annualized Operating and Maintenance Costs (O&M), and \$1,521,017, annual Labor Costs.

Changes in the Estimates: There is no change in the labor hours or cost in this ICR compared to the previous ICR. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Secondly, the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden.

Dated: April 6, 2007.

Acting Director, Collection Strategies Division.

EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in www.regulations.gov as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is

restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in www.regulations.gov. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in www.regulations.gov. For further information about the electronic docket, go to www.regulations.gov.

Title: Voluntary Cover Sheet for TSCA Submissions.

ICR Status: This is a request to renew an existing approved collection. This ICR is scheduled to expire on June 30, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: TSCA requires industry to submit information and studies for existing chemical substances under sections 4, 6, and 8, and requests voluntary submission of such information under the Voluntary Children's Chemical Evaluation Program (VCCEP). EPA typically receives thousands of such submissions each year; each submission represents on average three studies. In addition, EPA can impose specific data call-ins on industry.

As a follow-up to industry experience with a 1994 TSCA data call-in, the Chemical Manufacturers Association (CMA, now known as the American Chemistry Council [ACC]), the Specialty Organics Chemical Manufacturers Association (SOCMA), and the Chemical Industry Data Exchange (CIDX), in cooperation with EPA, took an interest in pursuing electronic transfer of TSCA summary data and of full submissions to EPA. In particular, ACC developed a standardized cover sheet for voluntary use by industry as a first step to an electronic future and to begin familiarizing companies with standard requirements and concepts of electronic transfer. This form is designed for voluntary use as a cover sheet for submissions of information under TSCA sections 4, 8(d), 8(e) and VCCEP. The cover sheet facilitates submission of information by displaying certain basic data elements, permitting EPA more easily to identify, log, track, distribute, review and index submissions, and to make information publicly available more rapidly and at

reduced cost, to the mutual benefit of both the respondents and EPA.

Responses to the collection of information are voluntary. Respondents may claim all or part of a notice as CBI. EPA will disclose information that is covered by a CBI claim only to the extent permitted by, and in accordance with, the procedures in 40 CFR part 2.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and included on the related collection instrument or form, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.5 hours per response. Burden means the total time, effort or financial resources expended by persons to generate, maintain, retain or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are companies that manufacture, process, use, import or distribute in commerce chemical substances that are subject to reporting requirements under sections 4, 8(d) or 8(e) of the Toxic Substances Control Act (TSCA), or are subject to voluntary reporting under the Voluntary Children's Chemical Evaluation Program (VCCEP).

Frequency of Collection: On occasion.

Estimated average number of responses for each respondent: 1.8.

Estimated No. of Respondents: 1,206.

Estimated Total Annual Burden on Respondents: 1,061 hours.

Estimated Total Annual Costs: \$52,779.

Changes in Burden Estimates: This request reflects a decrease of 8,074 hours (from 9,136 hours to 1,061 hours) in the total estimated respondent burden from that currently in the OMB inventory. This decrease reflects a

decrease in the estimated number of submissions under TSCA sections 4, 8(d) and 8(e), offset by the estimated number of submissions under VCCEP, for which the Voluntary TSCA Cover Sheet could be used, in particular a substantial decrease in the estimated number of TSCA section 4 submissions.

Dated: April 6, 2007.

Abstract: The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Wood Furniture Manufacturing Operations (40 CFR part 63, subpart JJ) were proposed on December 6, 1994, and promulgated on December 7, 1995. Respondents to this information collection request are the owners and operators of both new and existing wood furniture manufacturing operations that are sources of hazardous air pollutants. Major sources are required to perform recordkeeping activities and submit both initial and semiannual/quarterly compliance reports. Incidental wood furniture manufacturers and area sources must keep records to show that they are not major sources. The information is used to determine that all sources subject to the rule are complying with the standards. The information to be collected is mandatory under the rule.

Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintain reports and records. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office.
