SUPPLEMENTARY INFORMATION:

I. Additional Information About the Proposed Settlement Agreement

Petitioners raised issues concerning the final rule entitled "National Emission Standards for Hazardous Air Pollutants for Iron and Steel Foundries" published at 69 FR 21,906 (April 22, 2004) ("the Rule").

The proposed settlement agreement provides that no later than 30 days after it became final, EPA would sign a notice proposing revisions to the Rule that were the same in substance as set forth in Attachment A to the settlement agreement. The proposed revisions would add an alternative compliance option for cupolas at existing foundries and would include a number of small changes and clarifications. The Parties would file a joint stipulation of dismissal of case number 04-1191 if EPA promulgated final revisions that were materially the same as the proposed revisions.

For a period of thirty (30) days following the date of publication of this

notice, the Agency will receive written comments relating to the proposed settlement agreement from persons who were not named as parties or intervenors to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed settlement agreement if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act. Unless EPA or the Department of Justice determines, based on any comment which may be submitted, that consent to the settlement agreement should be withdrawn, the terms of the agreement will be affirmed.
