Coast Guard

33 CFR Part 165

[COTP San Francisco Bay 07-007]

RIN 1625-AA00

Safety Zone; Kimmelman's Wedding Party Fireworks Display, San Francisco Bay, CA

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone in the navigable waters of San Francisco Bay for the loading, transport, and launching of fireworks used during a wedding celebration display. This safety zone is established to ensure the safety of participants and spectators. Unauthorized persons or vessels are prohibited from entering into, transiting through, or remaining in the safety zone without permission of the Captain of the Port or his designated representative.

DATES: This rule is effective from 1 p.m. to 9:35 p.m. on April 28, 2007.

ADDRESSES: Documents indicated in this preamble as being available in the docket, are part of the docket COTP San Francisco Bay 07-007 and are available for inspection or copying at Coast Guard Sector San Francisco, 1 Yerba Buena Island, San Francisco, California, 94130, between 9 a.m. and 4 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Ensign Sheral Richardson, U.S. Coast Guard Sector San Francisco, at (415) 556-2950 ext. 140.

SUPPLEMENTARY INFORMATION:

Regulatory Information

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing an NPRM. Logistical details surrounding the event were not finalized and presented to the Coast Guard in time to draft and publish an NPRM. As such, the event would occur before the rulemaking process was complete. Because of the dangers posed by the pyrotechnics used in this fireworks display, safety zones are necessary to provide for the safety of event participants, spectator craft, and other vessels transiting the event area. For the safety concerns noted, it is in the public interest to have these regulations in effect during the event.

For the same reasons listed in the previous paragraph, under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. Any delay in the effective date of this rule would expose mariners to the dangers posed by the pyrotechnics used in this fireworks display.

Background and Purpose

Pyro's Spectacular Incorporated is sponsoring a brief fireworks display on April 28, 2007 in the waters of San Francisco Bay near Angel Island. The fireworks display is meant for entertainment purposes at the Kimmelman's Wedding. This safety zone is being issued to establish a temporary regulated area in San Francisco around the fireworks launch barge during loading of the pyrotechnics, during the transit of the barge to the display location, and during the fireworks display. This safety zone around the launch barge is necessary to protect spectators, vessels, and other property from the hazards associated with the pyrotechnics on the fireworks barge. The Coast Guard has granted the

event sponsor a marine event permit for the fireworks display.

Discussion of Rule

The Coast Guard is establishing a temporary safety zone on specified waters off of San Francisco Bay near Angel Island. During the loading of the fireworks barge, while the barge is being towed to the display location, and until the start of the fireworks display, the safety zone will apply to the navigable waters around and under the fireworks barge within a radius of 100 feet. Fifteen minutes prior to and during the 5-minute fireworks display, the area to which this safety zone applies to will increase in size to encompass the navigable waters around and under the fireworks barge within a radius of 800 feet. Loading of the pyrotechnics onto the fireworks barge is scheduled to commence at 1 p.m. on April 28, 2007, and will take place at Pier 50 in San Francisco. Towing of the barge from Pier 50 to the display location is scheduled to take place between 1 p.m. and 4 p.m. on April 28, 2007. During the fireworks display, scheduled to commence at approximately 9:30 p.m., the fireworks barge will be located approximately 800 feet off of Angel Island in position 37° 51'20.0" N, 122° 26'43.0" W.

The effect of the temporary safety zone will be to restrict general navigation in the vicinity of the fireworks barge while the fireworks are loaded at Pier 50, during the transit of the fireworks barge, and until the conclusion of the scheduled display. Except for persons or vessels authorized by the Coast Guard Patrol Commander, no person or vessel may enter or remain in the safety zone. This safety zone is needed to keep spectators and vessels a safe distance away from the fireworks barge to ensure the safety of participants, spectators, and transiting vessels.

Regulatory Evaluation

This rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

Although this rule restricts access to the waters encompassed by the safety zone, the effect of this rule will not be significant because the local waterway users will be notified via public broadcast notice to mariners to ensure the safety zone will result in minimum impact. The entities most likely to be
