

reducing the availability of tobacco products to individuals under the age of 18; and the strategies to be utilized by the State for enforcing such law during the fiscal year for which the grant is sought.

SAMHSA's Center for Substance Abuse Prevention will request OMB

approval of revisions to the current report format associated with Section 1926 (42 U.S.C. 300x-26). The report format is changing significantly. Any changes in either formatting or content are being made to simplify the reporting process for the States and to clarify the information as the States report it; both

outcomes will facilitate consistent, credible, and efficient monitoring of Synar compliance across the States and will reduce the reporting burden by the States. All of the information required in the new report format is already being collected by the States.

ANNUAL REPORTING BURDEN

45 CFR Citation	Number of respondents ¹	Responses per respondents	Hours per response	Total hour burden
Annual Report (Section 1—States and Territories) 96.130(e)(1-3)	59	1	15	885
State Plan (Section II—States and Territories) 96.130(e)(4,5)96.130(g)	59	1	3	177
Total	59	1,062

¹ Red Lake Indian Tribe is not subject to tobacco requirements.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA

Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: 2008 National Survey on Drug Use and Health—(OMB No. 0930-0110)—Revision

The National Survey on Drug Use and Health (NSDUH), formerly the National Household Survey on Drug Abuse (NHSDA), is a survey of the civilian, non-institutionalized population of the United States 12 years old and older. The data are used to determine the prevalence of use of tobacco products, alcohol, illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, ONDCP, Federal government agencies, and other organizations and researchers to

establish policy, direct program activities, and better allocate resources.

For the 2008 NSDUH, additional questions are being planned regarding suicide ideation and impairment from mental health issues. An embedded split-sample study is being planned to determine which one of two mental health disability scales to include in future NSDUH survey years. The two disability scales will be evaluated by using the SCID-I/NP as a follow-up interview with a subsample of respondents.

Other questionnaire changes include deletion of questions about Hurricanes Katrina and Rita, adoption of a reduced set of income questions which were tested in 2006 and 2007, and routing of Adderall, Ambien, Ketamine, DMT, AMT, "Foxy" and salvia divinorum users into the questions on drug dependence and abuse. For half of the adult population, the respondent burden will remain at 60 minutes per interview. However, due to the length of one of the disability scales, the other half of the adult population may have respondent burden of up to 61 minutes.

As with all NSDUH/NHSDA surveys conducted since 1999, the sample size of the survey for 2008 will be sufficient to permit prevalence estimates for each of the fifty states and the District of Columbia. The total annual burden estimate is shown below:

Activity	Number of respondents	Number of responses per respondent	Average burden hours per respondent	Total burden hours
Household Screening	182,250	1	.083	15,127
Interview	67,500	1	1.0	67,500
Clinical Follow-up	1,500	1	1.0	1,500
Screening Verification	5,494	1	.067	368
Interview Verification	10,125	1	.067	678
TOTAL	182,250	853,173

Send comments to Summer King, SAMHSA Reports Clearance Officer, Room 7-1044, One Choke Cherry Road, Rockville, MD 20857 and e-mail her a copy at summer.king@samhsa.hhs.gov. Written comments should be received within 60 days of this notice.

Dated: April 27, 2007.

DEPARTMENT OF HOMELAND SECURITY

Privacy Office

Published Privacy Impact Assessments on the Web

AGENCY: Privacy Office, Office of the Secretary, Department of Homeland Security.

ACTION: Notice of Publication of Privacy Impact Assessments.

SUMMARY: The Privacy Office of the Department of Homeland Security is making available five (5) Privacy Impact Assessments on various programs and systems in the Department. These assessments were approved and published on the Privacy Office's Web site between March 1, 2007 and March 31, 2007.

DATES: The Privacy Impact Assessments will be available on the DHS Web site until July 2, 2007, after which they may be obtained by contacting the DHS Privacy Office (contact information below).

FOR FURTHER INFORMATION CONTACT:

Hugo Teufel III, Chief Privacy Officer, Department of Homeland Security, Mail Stop 0550, Washington, DC 20528, or e-mail: pia@dhs.gov.

SUPPLEMENTARY INFORMATION: Between March 1, 2007 and March 31, 2007, the Chief Privacy Officer of the Department of Homeland Security (DHS) approved and published five (5) Privacy Impact Assessments (PIAs) on the DHS Privacy Office Web site, <http://www.dhs.gov/privacy>, under the link for "Privacy Impact Assessments." Below is a short summary of each of those systems, indicating the DHS component responsible for the system and the date on which the PIA was approved. Additional information can be found on the Web site or by contacting the Privacy Office.

System: The Department of Homeland Security REAL-ID ACT.

Component: Department-wide Programs.

Date of approval: March 1, 2007.

The Department of Homeland Security (DHS) Privacy Office conducted a Privacy Impact Assessment (PIA) on the rule proposed by DHS to implement the REAL ID Act. The authority for this PIA is Subsection 4 of Section 222 of the Homeland Security Act of 2002, as amended, which calls for the Chief Privacy Officer of the Department of Homeland Security to conduct a "privacy impact assessment of proposed rules of the Department." This analysis reflects the framework of the Privacy Office's Fair Information Principles, which are: Transparency, Individual Participation, Purpose Specification, Minimization, Use Limitation, Data Quality and Integrity, Security, and Accountability and Auditing. The Privacy Office conducts PIAs, whether under Subsection 4 of Section 222 or under Section 208 of the E-Government Act, to ensure that DHS is fully transparent about how its proposed rules, final rules, and intended information technology systems may affect privacy and to review alternative approaches and technologies that may minimize the privacy impact on individuals. This PIA examines the manner and method by which the personal information of American drivers and identification (ID) holders will be collected, used, disseminated, and maintained pursuant to the proposed rule issued under the REAL ID Act. This PIA will be updated, as necessary, when the rule is final.

System: U.S. Citizenship and Immigration Services' Biometric Storage System.

Component: U.S. Citizenship and Immigration Service.

Date of approval: March 28, 2007.

The United States Citizenship and Immigration Services (USCIS) is developing the Biometric Storage System (BSS) to help streamline the established USCIS biometric and card production processes and become the centralized repository for all USCIS customer biometrics. BSS will route, store, and process 10-print fingerprint biometrics and associated biographic information for biometric-based background checks on those individuals applying/petitioning for immigration benefits. BSS is a new system being developed incrementally and will replace the Image Storage and Retrieval System (ISRS). BSS will also replace aspects of the Benefit Biometric Support System (BBSS), while adding new functionalities that did not previously

exist in either ISRS or BBSS. A Systems of Records Notice was published in the **Federal Register** in connection with this PIA on April 6, 2007 (72 FR 17172).

System: Chemical Security Assessment Tool.

Component: National Protection and Programs, formerly Preparedness.

Date of approval: March 27, 2007.

The Department of Homeland Security/National Protection and Programs, formerly Preparedness will deploy and maintain the Chemical Security Assessment Tool (CSAT) in support of the Regulations for Chemical Facility Security released on April 2, 2007. The CSAT is designed to be a web-based self-assessment tool for use by chemical facilities. The CSAT will collect and maintain information for a Point of Contact for each participating facility. This PIA covers the new CSAT system.

System: Transportation Security Administration's Tactical Information Sharing System.

Component: Transportation Security Administration.

Date of approval: March 28, 2007.

The Transportation Security Administration (TSA) operates the Tactical Information Sharing System (TISS). The TISS receives, assesses, and distributes intelligence information related to transportation security to Federal Air Marshals and other Federal, State, and local law enforcement.

System: United States Visitor and Immigrant Status Indicator Technology Program (US-VISIT) Inclusion of Form I-94 Data in the Arrival and Departure Information System (ADIS).

Component: U.S. Visitor Immigrant Status Indicator Technology Program.

Date of approval: March 27, 2007.

This Privacy Impact Assessment update for the Arrival and Departure Information System is necessary to (1) clarify that I-94 data from land points of entry (POEs) is stored in ADIS and not just in the Treasury Enforcement Communications System; and (2) notify the public of the extension of the collection and processing of Form I-94 data in ADIS to include air and sea POEs.

Dated: April 23, 2007.

Hugo Teufel III,

Chief Privacy Officer.
