New Mexico Resource Advisory Council, Notice of Call for Nominations

AGENCY: Bureau of Land Management, Department of the Interior.

ACTION: Notice of call for nominations.

SUMMARY: The purpose of this notice is to solicit public nominations for vacant positions on the Bureau of Land Management (BLM) New Mexico Resource Advisory Council (RAC). The RAC provides advice and recommendations to BLM on land use planning and management of the public lands within New Mexico. Public nominations will be considered until June 18, 2007.

SUPPLEMENTARY INFORMATION: The Federal Land Policy and Management Act (FLPMA) directs the Secretary of the

Interior to involve the public in planning and issues related to management of land administered by BLM. Section 309 of FLPMA directs the Secretary to select a 15-member, citizen-based advisory councils that are established and authorized consistent with the requirements of the Federal Advisory Committee Act (FACA). As required by the FACA, RAC membership must be balanced and representative of the various interests concerned with the management of the public lands. There is one vacant position for the New Mexico RAC in Category 1 representing any holders of Federal grazing permits and representatives of energy and mineral development, timber industry, transportation or rights-of-way, off-highway vehicle use, and commercial recreation.

There are two vacancies in Category 2 representing nationally or regionally recognized environmental organizations, archaeological and historic interests, dispersed recreation, and wild horse and burro groups.

Individuals may nominate themselves or others. Nominees must be residents of New Mexico. Nominees should have demonstrated a commitment to collaborative resource decisionmaking. Letters of reference must accompany all nominations from represented interests or organizations, a completed background information nomination form, as well as any other information that speaks to the nominee's qualifications.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Proposed Collection, Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed extension of the Annual Refiling Survey (ARS) forms. A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the Addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section of this notice on or before July 16, 2007.

ADDRESSES: Send comments to Amy A. Hobby, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue, NE., Washington, DC 20212, 202-691-7628. (This is not a toll free number.)

FOR FURTHER INFORMATION CONTACT:

Amy A. Hobby, BLS Clearance Officer, 202-691-7628. (See **ADDRESSES** section.)

SUPPLEMENTARY INFORMATION:

I. Background

The Quarterly Census of Employment and Wages (QCEW) program, formerly known as the ES-202 Program, is a Federal/State cooperative effort which compiles monthly employment data, quarterly wages data, and business identification information from employers subject to State Unemployment Insurance (UI) laws. These data are collected from State Quarterly Contribution Reports (QCRs) submitted to State Workforce Agencies (SWAs). The States send micro-level employment and wages data, supplemented with the names, addresses, and business identification information of these employers, to the BLS. The State data are used to create the BLS sampling frame, known as the longitudinal QCEW data.

To ensure the continued accuracy of these data, the information supplied by employers must be periodically verified and updated. For this purpose, the Annual Refiling Survey (ARS) is used in conjunction with the UI tax reporting system in each State. The information collected on the ARS is used to review the existing industry code assigned to each establishment as well as the physical location of the business establishment. As a result, changes in the industrial and geographical compositions of our economy are captured in a timely manner and reflected in the BLS statistical programs.

The ARS also asks employers to identify new locations in the State. If these employers meet QCEW program reporting criteria, then a Multiple Worksite Report (MWR) is mailed to the employer requesting employment and wages for each worksite each quarter. Thus, the ARS is also used to identify new potential MWR-eligible employers.

II. Current Action

While the primary purpose of the ARS is to verify or to correct the North American Industry Classification System (NAICS) code assigned to

establishments, there are other important purposes of the ARS. The ARS seeks accurate mailing and physical location addresses of establishments as well as geographic codes such as county and township (independent city, parish, or island in some States).

Once every three years, the SWAs survey employers that are covered by the State's UI laws to ensure that State records correctly reflect the business activities and locations of those employers. States send an ARS form to approximately one-third of their businesses each year, surveying the entire universe of covered businesses over a three-year cycle. The selection criterion for surveying establishments is based on the nine-digit Federal Employer Identification Number of the respondent.

The ARS remains largely a mail survey, although steps have been taken to reduce the amount of paperwork involved in responding to the survey. For example, BLS staff review selected, large multi-worksite national employers rather than surveying these employers with traditional ARS forms. This central review significantly reduces postage costs incurred by our State partners in sending ARS forms. It also reduces respondent burden, as the selected employers do not have to submit ARS forms.

Single-worksite employers have been identified as potential users of the BLS-developed Touchtone Response System (TRS). Employers can use the TRS if they meet certain conditions and there are no changes to specific data elements based upon the employer's review. The TRS reduces respondent burden because it is quick, free, and convenient. It also allows respondents to help BLS reduce survey costs because they do not return the form in the business reply envelope provided. All States are now using the TRS in conducting the ARS.

Another recent initiative to reduce the costs associated with the ARS is the use of a private contractor to handle various administrative aspects of the survey. This initiative is called the Centralized Annual Refiling Survey (CARS). Under CARS, BLS effectively utilizes the commercial advantages related to printing, stuffing, and mailing large volumes of survey forms.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including
