SUPPLEMENTARY INFORMATION: *Title:* 30 CFR Part 253, Oil Spill Financial Responsibility for Offshore Facilities.

Forms: MMS-1016, 1017, 1018, 1019, 1020, 1021, and 1022.

OMB Control Number: 1010-0106.

Abstract: Title I of the Oil Pollution Act of 1990 (OPA) (33 U.S.C. 2701 *et seq.*), as amended by the Coast Guard Authorization Act of 1996 (Pub. L. 104-

324), provides at section 1016 that oil spill financial responsibility (OSFR) for offshore facilities be established and maintained according to methods determined acceptable to the President. Section 1016 of OPA supersedes the offshore facility oil spill financial responsibility provisions of the Outer Continental Shelf (OCS) Lands Act Amendments of 1978. These authorities and responsibilities are among those delegated to the Minerals Management Service (MMS) under which MMS issues regulations governing oil and gas and sulphur operations in the OCS.

This information collection request addresses the regulations at 30 CFR Part 253, Oil Spill Financial Responsibility for Offshore Facilities, including any supplementary Notices to Lessees and Operators (NTLs) that provide clarification, description, or explanation of these regulations, and forms MMS-1016 through MMS-1022. We have made a few minor changes to headings on the forms. There are no data element changes.

The MMS will use the information collected under 30 CFR Part 253 to verify compliance with section 1016 of OPA. The information is necessary to confirm that applicants can pay for clean-up and damages from oil-spill discharges from Covered Offshore Facilities (COFs). The information will be used routinely: (a) To establish approval and eligibility of applicants for an Oil Spill Financial Responsibility (OSFR) certification; and (b) as a reference source for clean-up and damage claims associated with oil-spill discharges from COFs; the names, addresses, and telephone numbers of owners, operators, and guarantors; designated U.S. agents for service of process; and persons to contact. To collect most of the information, MMS developed standard forms. The forms and their purposes are:

Cover Sheet: The forms will be distributed in a package that includes a cover sheet that displays the required OMB Control Number, Expiration Date, and Paperwork Reduction Act statement. This cover sheet will accompany the forms as part of a package or will be included with any copies of a particular form that respondents may request.

Form MMS-1016, Designated Applicant Information Certification: The designated applicant uses this form to provide identifying information (company legal name, MMS qualification number and region, address, contact name and title, telephone and fax numbers) and to summarize the OSFR evidence. This

form is required for each new or renewed OSFR certification application.

Form MMS-1017, Designation of Applicant: When there is more than one responsible party for a COF, they must select a designated applicant. Each responsible party, as defined in the regulations, must use this form to notify MMS of the designated applicant. This form is also used to designate the U.S. agent for service of process for the responsible party(ies) if claims from an oil-spill discharge exceed the amount evidenced by the designated applicant; identifies and provides pertinent information about the responsible party(ies); and lists the COFs for which the responsible party is liable for OSFR certification. The form identifies each COF by State or OCS region; lease, permit, right of use and easement or pipeline number; aliquot section; area name; and block number. This form must be submitted with each new OSFR application or with an assignment involving a COF in which there is at least one responsible party who is not the designated applicant for a COF.

Form MMS-1018, Self-Insurance or Indemnity Information: This form is used if the designated applicant is self-insuring or using an indemnity for OSFR evidence. As appropriate, either the designated applicant or the designated applicant's indemnitor completes the form to indicate the amount of OSFR coverage and effective and expiration dates. The form also provides pertinent information about the self-insurer or indemnitor and is used to designate a U.S. agent for service of process for claims up to the evidenced amount. This form must be submitted each time new evidence of OSFR is submitted using either self-insurance or an indemnification.

Form MMS-1019, Insurance Certificate: The designated applicant (representing himself as a direct purchaser of insurance) or his insurance agent or broker and the named insurers complete this form to provide OSFR evidence using insurance. The number of forms to be submitted will depend upon the number of layers of insurance to evidence the total amount of OSFR required. One form is required for each layer of insurance. The form provides pertinent information about the insurer(s) and designates a U.S. agent for service of process. This form must be submitted at the beginning of the term of the insurance coverage for the designated applicant's COFs or at the time COFs are added, with the scheduled option selected, to OSFR coverage.

Form MMS-1020, Surety Bond: Each bonding company that issues a surety

bond for the designated applicant must complete this form indicating the amount of surety and effective dates. The form provides pertinent information about the bonding company and designates a U.S. agent for service of process for the amount evidenced by the surety bond. This form must be submitted at the beginning of the term of the surety bond for the named designated applicant.

Form MMS-1021, Covered Offshore Facilities: The designated applicant submits this form to identify the COFs for which the OSFR evidence applies. The form identifies each COF by State or OCS region; lease, permit, right of use and easement or pipeline number; aliquot section; area name; block number; and potential worst case oil-spill discharge. This form is required to be submitted with each new or renewed OSFR certification application that includes COFs.

Form MMS-1022, Covered Offshore Facility Changes: During the term of the issued OSFR certification, the designated applicant may submit changes to the current COF listings, including additions, deletions, or changes to the worst case oil-spill discharge for a COF. This form must be submitted when identified changes occur during the term of an OSFR Certification.

We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2) and under regulations at 30 CFR 250.197, "Data and information to be made available to the public." No items of a sensitive nature are collected. Responses are mandatory.

Frequency: On an annual basis, except for changes to existing COF listings that could occur throughout the term of the OSFR Certification.

Estimated Number and Description of Respondents: Approximately 600 holders of leases, permits, and rights of use and easement in the OCS and in State coastal waters who will appoint approximately 200 designated applicants. Other respondents will be the designated applicants' insurance agents and brokers, bonding companies, and indemnitors. Some respondents may also be claimants.

Estimated Reporting and Recordkeeping "Hour" Burden: The currently approved annual reporting burden for this collection is 19,299 hours. The following chart details the individual components and respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden: We have identified no "non-hour cost" burdens for this collection.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * * ". Agencies must specifically solicit comments to: (a) Evaluate whether the

proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

Agencies must also estimate the "non-hour cost" burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or

annual operation, maintenance, and purchase of service components. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information, monitoring, and record storage facilities. You should not include estimates for equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of

customary and usual business or private practices.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Procedures: MMS's practice is to make comments, including names and addresses of respondents, available for public review. If you wish your name and/or address to be withheld, you must state this prominently at the beginning of your comment. MMS will honor this request to the extent allowable by law; however, anonymous comments will not be considered. There may be circumstances in which we would withhold from the record a respondent's identity, as allowable by the law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. In addition, you must present a rationale for withholding this information. This rationale must demonstrate that disclosure "would constitute an unwarranted invasion of privacy." Unsupported assertions will not meet this burden. In the absence of exceptional, documentable circumstances, this information will be released. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.
