Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

Scoping comments may be filed electronically via the Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link.

l. The *Woodleaf-Kanaka Junction Transmission Line Project* is a transmission line only project that transmits electricity 6.2 miles from the Woodleaf Powerhouse (owned and operated by the South Feather Water and Power Agency under FERC Project No. 2088) to the Kanaka Junction. The Project also includes a 0.02-mile long tap line extending to Forbestown Powerhouse (also under FERC Project No. 2088). The Woodleaf-Kanaka Junction Transmission Line is composed of a single-circuit, 115-kV transmission line, supported primarily on wood-pole, H-frame towers within a 75-foot wide right-of-way. The project is linked to the Licensee's Sly Creek Transmission Line (FERC License No. 4851), via the Woodleaf Powerhouse Switchyard, a component of FERC Project No. 2088.

The *Sly Creek Transmission Line Project* is a transmission line only project that transmits electricity 5.4 miles from the Sly Creek Powerhouse (owned and operated by the South Feather Water and Power Agency under FERC Project No. 2088) to Pacific Gas and Electric Company's Woodleaf-Kanaka Junction Transmission Line Project (FERC Project No. 2281). The transmission line Project consists of an existing single-circuit, 115 kV transmission line, supported primarily on wood-pole, H-frame structures within a 75-foot-wide right-of-way, and appurtenant facilities.

n. *Scoping Process:*

The Commission intends to prepare a joint Environmental assessment (EA) for the projects in accordance with the National Environmental Policy Act. The multi-project EA will consider both site-specific and cumulative environmental impacts and reasonable alternatives to the proposed actions.

Scoping Meetings

FERC staff will conduct one agency scoping meeting and one public meeting, in conjunction with scoping for the South Feather Power Project. The agency scoping meeting will focus on resource agency and non-governmental organization (NGO) concerns, while the public scoping meeting is primarily for public input. All interested individuals, organizations, and agencies are invited to attend one or both of the meetings, and to assist the staff in identifying the scope of the environmental issues that should be analyzed in the EA. The times and locations of these meetings are as follows:

Agency Scoping Meeting

Date: June 14, 2007.

Time: 10 a.m. (PST).

Place: VFW Post #1747.

Address: 1901 Elgin St., Oroville, CA.

Public Scoping Meeting

Date: June 13, 2007.

Time: 7 p.m. (PST).

Place: VFW Post #1747.

Address: 1901 Elgin St., Oroville, CA.

Copies of the Scoping Document (SD1) outlining the subject areas to be addressed in the EA are being distributed to the parties on the Commission's mailing list under separate cover. Commission's mailing list. Copies of the SD1 will be available at the scoping meeting or may be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link (see item m above).

Site Visit

We also will conduct a two-day site visit to the project facilities on Tuesday, June 12, 2007, and Wednesday June 13, 2007, in conjunction with a site visit of the South Feather Power Project. On

both days we will meet at the South Feather Water and Power Agency's Forbestown Office, 5494 Forbestown Rd, Forbestown, CA at 7:30 a.m. All participants are responsible for their own transportation on the site visits and will need to provide their own lunch.

Objectives

At the scoping meetings, the staff will: (1) Summarize the environmental issues tentatively identified for analysis in the EA; (2) solicit from the meeting participants all available information, especially quantifiable data, on the resources at issue; (3) encourage statements from experts and the public on issues that should be analyzed in the EA, including viewpoints in opposition to, or in support of, the staff's preliminary views; (4) determine the resource issues to be addressed in the EA; and (5) identify those issues that require a detailed analysis, as well as those issues that do not require a detailed analysis.

Procedures

The meetings are recorded by a stenographer and become part of the formal record of the Commission proceeding on the project.

Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the meeting and to assist the staff in defining and clarifying the issues to be addressed in the EA.
