SUPPLEMENTARY INFORMATION:

I. Authority and Background

Title III of the Energy Policy and Conservation Act (EPCA), as amended, provides for the Energy Conservation

Program for Consumer Products Other than Automobiles and sets forth energy conservation requirements for consumer appliance products. (42 U.S.C. 6291 *et seq.*) EPCA authorizes the Secretary of Energy to carry out these requirements, in part, by issuing the necessary rules requiring each manufacturer of a covered product to submit information and reports to ensure compliance. (42 U.S.C. 6296(d))

On November 17, 2006, DOE published in the **Federal Register** a notice and request for comments regarding its proposed information collection for consumer appliance products covered under 10 CFR 430. 71 FR 66943 (November 17, 2006). DOE received no comments on its proposed information collection.

The information collection request, at appendix A to subpart F of 10 CFR Part 430, provides a format for a manufacturer or private labeler to certify compliance with the applicable energy efficiency standards prescribed under section 325 of EPCA (42 U.S.C. 6295) and covers information necessary for DOE and United States Customs Service officials to facilitate voluntary compliance with and enforcement of the energy and water conservation standards established for refrigerators, refrigerator/freezers, freezers, room air conditioners, central air conditioners, central air-conditioning heat pumps, water heaters, furnaces, dishwashers, clothes washers, clothes dryers, direct heating equipment, kitchen ranges and ovens, pool heaters, fluorescent lamp ballasts, general service fluorescent lamps and incandescent reflector lamps, and plumbing products.

(3) *Type of Review*: Renewal. (4) *Purpose*: Regulations that, in part, (1) require the manufacturer of private labeler of any consumer appliance subject to energy or water conservation standards prescribed under section 325 of EPCA to establish, maintain, and retain records of its test data and subsequent verification of any alternative efficiency determination method used under Part 430, and (2) preclude distribution in commerce of any basic model of consumer appliance which is subject to an energy or water conservation standard set forth under subpart C of Part 430, unless it has submitted a Compliance Certification to

DOE according to the provisions under 10 CFR section 430.62, that the basic model meets the requirements of the applicable standard. This collection of information ensures compliance with the energy conservation requirements for consumer appliances. (5) *Estimated Number of Respondents*: 150. (6) *Estimated Total Burden Hours*: 4,507. (7) *Number of Collections*: The package contains one information and recordkeeping requirement.

Comments are invited on: (a) Whether the information collections are necessary for the proper performance of the functions of the DOE, including whether the information has practical utility; (b) the accuracy of the DOE's estimate of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collections on respondents, including through the use of automated collection techniques or other forms of information technology.
