

Environmental Impact Statement (EIS) (February 2007), supporting studies and comments provided during formal comment and review periods. The Proposed Action includes construction, renovation, and operation of proposed facilities to accommodate incoming military missions at Fort Lee. To implement the BRAC recommendations, Fort Lee will be receiving personnel, equipment, and missions from various closure and realignment actions within the Department of Defense. To implement the BRAC Commission recommendations, the Army will provide the necessary facilities, buildings, and infrastructure to support the establishment of a Sustainment Center of Excellence, a Joint Center for Consolidated Transportation Management Training, and a Joint Center of Excellence for Culinary Training at Fort Lee; locate various offices of the Defense Contract Management Agency Headquarters at Fort Lee; and receive all components of the Defense Commissary Agency at Fort Lee. Additionally, facilities will be installed or constructed at Fort A.P. Hill to accommodate field training exercises and leadership skills training for Student Soldiers at Fort Lee. The No Action Alternative would not meet the Army's purpose and need for the Proposed Action as the BRAC realignment is required by Congress and needed for Army transformation to be effective.

Special considerations was given to the effect of the Proposed Action on natural resources, cultural resources, traffic and the Petersburg National Battlefield. All practicable means to avoid or minimize environmental harm from the selected alternative have been adopted. The Army will minimize effects on all environmental and socioeconomic resources by implementing best management practices as described in the EIS. Mitigation measures, as described in the ROD, will be implemented (subject to the availability of funding) to minimize, avoid, or compensate for the adverse effects identified in the EIS at Fort Lee and Fort A.P. Hill for the following: Aesthetic and visual resources, noise, water resources, biological resources, cultural resources, and socioeconomic. The EIS identifies transportation projects that could eliminate adverse impacts from implementing the Proposed Action. The ROD describes the disposition of these projects and the approach the Army will take to mitigate traffic concerns. The ROD determines that implementing the Proposed Action reflects a proper balance between

initiatives for protection of the environment, appropriate mitigation, and actions to achieve the Army's requirements.

An electronic version of the ROD can be viewed or downloaded from the following Web site: http://www.hqda.army.mil/accsim/brac/nepa_eis_docs.htm.

Submission for OMB Review; Comment Request

AGENCY: Department of Education.

SUMMARY: The IC Clearance Official, Regulatory Information Management Services, Office of Management invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before July 5, 2007.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Education Desk Officer, Office of Management and Budget, 725 17th Street, NW., Room 10222, Washington, DC 20503. Commenters are encouraged to submit responses electronically by E-mail to oir_submission@omb.eop.gov or via Fax to (202) 395-6974. Commenters should include the following subject line in their response "Comment: [insert OMB number], [insert abbreviated collection name, e.g., "Upward Bound Evaluation"]". Persons submitting comments electronically should not submit paper copies.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of

Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

Dated: May 29, 2007.

Type of Review: Reinstatement.

Title: Financial Report for Grantees under the Title III Part A, Title III Part B, and the Title V Program Endowment Activities and Endowment Challenge Grant.

Frequency: Annually.

Affected Public: Not-for-profit institutions.

Reporting and Recordkeeping Hour Burden:

Responses: 300.

Burden Hours: 900.

Abstract: This financial reporting form will be utilized for Title III Part A, Title III Part B and Title V Program Endowment Activities and Title III Part C Endowment Challenge Grant Program. The purpose of this Annual Financial Report is to have the grantees report annually the kind of investments that have been made, the income earned and spent, and whether any part of the Endowment Fund Corpus has been spent. This information allows us to give technical assistance and determine whether the grantee has complied with the statutory and regulatory investment requirements.

DEPARTMENT OF ENERGY

Western Area Power Administration

Eastern Plains Transmission Project, Colorado and Kansas

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of public meeting and additional opportunity for public review and comment.

SUMMARY: The U.S. Department of Energy (DOE), Western Area Power Administration (Western) issued a notice of intent (NOI) to prepare an Environmental Impact Statement (EIS) on August 2, 2006, for the Eastern Plains Transmission Project (EPTP or Transmission Project). This notice announces an additional public meeting to provide the public opportunity to review and comment on additional and revised transmission line routes and the scope of the EIS. A summary of comments previously received during the scoping meetings held in August and September 2006, and meetings held in February 2007, is available upon request or at <http://www.wapa.gov/transmission/eptp.htm>.

Western is proposing to participate with Tri-State Generation and Transmission Association, Incorporated (Tri-State) in the construction of the EPTP. Western's participation would be in exchange for 275 megawatts (MW) of capacity rights on the proposed transmission lines. The EIS will address the construction, operation, and maintenance of approximately 1,000 miles of high-voltage transmission lines and ancillary facilities, which include substations, fiber optic installations, access roads, and construction staging areas. The EIS will discuss alternatives such as Western's system alternatives and the no action alternative (no Federal action). The EIS will analyze and present environmental impacts compared to the existing baseline condition in which no Transmission Project facilities exist. The EIS also will include analyses of the environmental
