SUPPLEMENTARY INFORMATION:
I. Abstract

The Electronic Duck Stamp Act of 2005 (Act) (Pub.L. 109-266), passed in August 2006, requires that the Secretary of the Interior conduct a 3-year pilot program under which up to 15 States

authorized by the Secretary may issue electronic Federal Duck Stamps. Eligible applicants are State fish and wildlife agencies that have an automated licensing system authorized under State law. There are currently 40 States that offer Internet, point of sale, or telephonic sales for their hunting and fishing licenses.

Under the Act, a State may not participate in the pilot program unless it submits an application and the Secretary approves it. OMB has granted emergency approval for the application for this program (FWS Form 3-2341) and assigned OMB Control No. 1018-0135, which expires October 31, 2007. To participate in the pilot program, eligible State fish and wildlife agencies must have submitted an application by June 8, 2007. The application process will lead to the selection of up to 15 participants for this pilot program.

The Act requires reports from States that participate in the pilot program. We plan to ask OMB to approve the following reporting requirements for a 3-year term:

(1) Pilot Fulfillment Report. Each participating State must collect the following information and submit it to the fulfillment contractor on a weekly basis. We will use this information to issue an actual stamp to each purchaser.

(a) First and last name and complete mailing address for each individual who purchases an electronic stamp from the State.

(b) Face value amount of each electronic stamp sold by the State.

(c) Amount of the Federal portion of any fee required by the agreement for each stamp sold.

(2) At the end of the pilot program, the Act requires that we submit a report to Congress. We will evaluate the program to determine if it has provided a cost effective and convenient means for issuing Federal Duck Stamps. We will ask each State to provide information on whether or not the program:

(a) Increased the availability of the stamps.

(b) Assisted States in meeting customer service objectives.

(c) Maintained actual stamps as an effective and viable conservation tool.

(d) Maintained adequate retail availability of the actual stamp.
