To What Information Collection Activity or ICR Does This Apply?

Docket ID No. EPA-HQ-OAR-2003-0120.

Affected Entities: Entities potentially affected by this action as respondents are manufacturers and importers of automobile refinish coatings and coating components. Manufacturers of automobile refinish coatings and coating components fall within standard industrial classification (SIC) 2851, "Paints, Varnishes, Lacquers, Enamels, and Allied Products" and North American Industry Classification System (NAICS) code 325510, "Paint and Coating Manufacturing." Importers of automobile refinish coatings and coating components fall within SIC 5198, "Wholesale Trade: Paints, Varnishes, and Supplies," NAICS code 422950, "Paint, Varnish and Supplies Wholesalers," and NAICS code 444120, "Paint and Wallpaper Stores."

Title: Reporting and Recordkeeping Requirements for National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings (40 CFR part 59).

ICR number: EPA ICR Number 1765.04, OMB Control Number 2060-0353.

ICR status: This ICR is currently scheduled to expire on March 31, 2007. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The EPA is required under section 183(e) of the Clean Air Act to regulate volatile organic compound emissions from the use of consumer and commercial products. Pursuant to section 183(e)(3), the EPA published a list of consumer and commercial products and a schedule for their regulation (60 FR 15264). Automobile refinish coatings were included on the

list, and the standards for such coatings are codified at 40 CFR part 59, subpart B. The reports required under the standards enable EPA to identify all coating and coating component manufacturers and importers in the United States and to determine which coatings and coating components are subject to the standards, based on dates of manufacture.

EPA provided notice and sought comments on the previous ICR renewal on July 8, 2003 (68 FR 40654), pursuant to 5 CFR 1320.8(d). The EPA received no comments to that notice.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 4 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This included the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 4.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: One or less per year.

Estimated total annual burden hours: 14.

Estimated total annual costs: \$940. This includes an estimated burden cost of \$0 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

Are There Changes in the Estimates From the Last Approval?

There are no changes being made to the estimates in this ICR from what EPA estimated in the earlier renewal (2003) of this ICR.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review

and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: January 17, 2007.

Jenny Noonan Edmonds,

Acting Director, Office of Air Quality Planning and Safeguards.
