DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2007-0052]

Portable Fire Extinguishers (Annual Maintenance Certification Record); Extension of the Office of Management and Budget's (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comment.

SUMMARY: OSHA solicits public comment concerning its proposal to extend OMB approval of the information collection requirements specified in the Standard on Portable Fire Extinguishers (Annual Maintenance Certification Record) (29 CFR 1910.157(e)(3)).

Paragraph (e)(3) of the Standard requires employers to: Inspect portable fire extinguishers annually for normal operation; record the maintenance date; retain the maintenance record for one year after the last entry or for the life of the shell, whichever is less; and make the record available to an OSHA compliance officer upon request. The annual maintenance inspection ensures that portable fire extinguishers are in safe operating condition in case of a fire, while the maintenance record provides evidence to employees and Agency compliance officers that employers performed the required inspections.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed

and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 et seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

Section 1910.157(e)(3) specifies that employers must subject each portable fire extinguisher to an annual maintenance inspection and record the date of the inspection. In addition, this provision requires employers to retain the inspection record for one year after the last entry or for the life of the shell, whichever is less, and to make the record available to OSHA on request. This recordkeeping requirement assures employees and Agency compliance officers that portable fire extinguishers located in the workplace will operate normally in case of fire; in addition, this requirement provides evidence of the required extinguisher inspections to OSHA compliance officers during a workplace inspection.

II. Special Issues for Comment OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Standard on Portable Fire Extinguishers (Annual Maintenance Certification Record) (29 CFR 1910.157(e)(3)). The Agency is requesting to increase its current burden hour estimate associated with this Standard from 67,500 hours to 69,019 hours for a total increase of 1,519 hours. The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: Portable Fire Extinguishers (Annual Maintenance Certification Record) (29 CFR 1910.157(e)(3)).

OMB Number: 1218-0238.

Affected Public: Business or other for-profit.
