Change in Nomenclature

The PHMSA changed the name of a decision we make granting a request for waiver of compliance from "decision granting waiver" to "special permit" to reflect that granting the request will not reduce safety. We commonly add safety conditions to decisions granting waivers to ensure that waiving compliance with an existing pipeline safety standard is consistent with pipeline safety. The change was simply a name change for a decision granting waiver under 49 U.S.C. 60118(c)(1).

Comments Invited on Requests for Waiver

The PHMSA has filed in DOT's Docket Management System (DMS) requests for waiver we have received from pipeline operators seeking relief from compliance with certain pipeline safety regulations. Each request has been assigned a separate docket number in the DMS. We invite interested persons to participate by reviewing these requests and by submitting written comments, data or other views. Please include any comments on environmental impacts granting the requests may have.

Before acting on any request, PHMSA will evaluate all comments received on or before the comment closing date. We will consider comments received after this date if it is possible to do so without incurring additional expense or delay. We may grant or deny these requests based on the comments we receive.

The PHMSA has received the following requests for waivers of compliance with pipeline safety regulations.

Docket No.	Requester	Regulation(s)	Nature of waiver
PHMSA-2007-28019	TPM, Inc	49 CFR 195.410	To authorize the operator to mark the pipeline using the words "Chemical Pipeline" in lieu of "Anhydrous Ammonia Pipeline."
PHMSA-2007-28276	Golden Pass LNG Terminal, L.L.C	49 CFR 193.2301	To authorize the use of automatic ultrasonic testing to inspect liquefied natural gas tank welds.
PHMSA-2007-28458	Dominion Transmission, Inc	49 CFR 192.611	To authorize operation of 6,354 ft of a gas transmission pipeline located one mile east of the Groveport Compressor Station in Fairfield County, Ohio without reducing operating pressure as a result of a change from a Class 2 to a Class 3 location.

Authority: 49 U.S.C. 60118(c)(1) and 49 CFR 1.53.

Issued in Washington, DC on July 3, 2007.

Jeffrey D. Wiese,

Acting Associate Administrator for Pipeline Safety.
