

the Food Stamp Program Quality Control system. The Food and Nutrition Service (FNS), as administrator of the Food Stamp Program, requires each State agency to implement a quality control system to provide basis for determining each State agency's error rates through review of a sample of Food Stamp cases. Each State agency is responsible for the design and selection of the quality control samples and must submit a quality control sampling plan for approval to FNS. Additionally, State agencies are required to maintain case records for three years to ensure compliance with provisions of the Food Stamp Act of 1977.
