

**DATES:** The meeting will take place October 16–17, 2007. See **SUPPLEMENTARY INFORMATION** for specific dates and times.

**ADDRESSES:** The meeting will be held at the Hilton Garden Inn, Charleston Airport, 5265 International Boulevard, North Charleston, SC 29418; telephone: (877) 782-9444 or (843) 308-9330; fax: (843) 308-9331.

**FOR FURTHER INFORMATION CONTACT:** Kim Iverson, Public Information Officer, South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; telephone: (843) 571-4366 or toll free (866) SAFMC-10; fax: (843) 769-4520; email: [kim.iverson@safmc.net](mailto:kim.iverson@safmc.net).

**SUPPLEMENTARY INFORMATION:** Members of the LAP Program Exploratory Workgroup will meet from 1 p.m. - 5 p.m. on October 16, 2007, and from 8:30 a.m. - 3 p.m. on October 17, 2007.

The meeting is being convened to address issues relevant to the Council's consideration of implementing a LAP Program for the commercial snapper grouper fishery in the South Atlantic region.

Items for discussion by the Workgroup include: (1) development of options on LAP eligibility, (2) initial allocation methods, (3) initial allocation appeals process, and (4) regionalization

of LAPs. The Workgroup will also receive also receive a presentation on British Columbia LAPs.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

#### Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for auxiliary aids should be directed to the Council office (see **FOR FURTHER INFORMATION CONTACT**) 3 days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Dated: September 18, 2007.

## DEFENSE SECURITY COOPERATION AGENCY

WASHINGTON, DC 20301-2800

SEP 12 2007

In reply refer to:  
I-07/003386

The Honorable Nancy Pelosi  
Speaker of the House of Representatives  
Washington, DC 20515-6501

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 07-19, concerning the Department of the Navy's proposed Letter(s) of Offer and Acceptance to Taipei Economic and Cultural Representative Office in the United States for defense articles and services estimated to cost \$272 million in accordance with the Taiwan Relations Act, P. L. 96-8. After this letter is delivered to your office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely,

A handwritten signature in cursive script, reading "Richard J. Millies", is positioned below the word "Sincerely,".

Richard J. Millies  
Deputy Director

- (viii) Date Report Delivered to Congress: SEP 12 2007

\*as defined in Section 47(6) of the Arms Export Control Act.

### **POLICY JUSTIFICATION**

#### **Taipei Economic and Cultural Representative Office in the United States - SM-2 Block IIIA STANDARD Missiles**

The Taipei Economic and Cultural Representative Office in the United States has requested a possible sale of 144 SM-2 Block IIIA STANDARD missiles, 16 Telemetry missiles, canisters, containers, spare and repair parts, supply support, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related elements of logistics support.

This proposed sale serves our national economic and security interests by supporting the recipient's continuing efforts to modernize its armed forces and enhance its defensive ability to counter air and ground threats. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region. The U.S. is committed to providing military assistance under the terms of the Taiwan Relations Act.

This sale is consistent with United States law and policy as expressed in Public Law 96-8.

The proposed sale will provide the recipient continued anti-aircraft defense capabilities for its Navy. The recipient intends to use the SM-2 missiles on its destroyer class surface ships for self-defense against air and cruise missile threats. Recipient, which already has SM-2 STANDARD missiles in its inventory, will have no difficulty absorbing these additional SM-2 STANDARD missiles.

Implementation of this sale will not require the assignment of any U.S. Government representatives; however, it is estimated that approximately six months of contractor technical support and training will be required on the island following delivery of the missiles.

The prime contractor will be Raytheon Missile Systems Corporation, Tucson, Arizona. Although the purchaser generally requires offsets, at this time, there are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

## Transmittal No. 07-19

**Notice of Proposed Issuance of Letter of Offer  
Pursuant to Section 36(b)(1)  
of the Arms Export Control Act**

**Annex  
Item No. vii**

**(vii) Sensitivity of Technology:**

1. The SM-2 Block IIIA STANDARD missile is a U.S. Navy surface-launched guided missile and is classified Secret. It is operationally deployed on cruisers, destroyers, and frigates for use against air and anti-ship cruise missile threats and for area defense. The guidance system employs a continuous-wave or interrupted continuous-wave radar link for homing in on a target. Steering and roll commands from the adaptive auto-pilot system provide flight stability via four aft-mounted control surfaces. Propulsion is provided by a solid-propellant, dual-thrust rocket motor that is an integral part of the missile airframe. The target detecting device (TDD) is a complex fuze with dual radar systems to optimize warhead lethality against a spectrum of target sizes and speeds.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
