**OMB Control Number:** 0535–0109.  
**Expiration Date of Approval:** April 30, 2009.

**Type of Request:** To suspend a currently approved information collection.

**Abstract:** The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, disposition, and prices. Number of workers and hours worked are used to estimate agricultural productivity; wage rates are used in the administration of the H–2A Program and for setting Adverse Effect Wage Rates. Survey data are also used to carry out provisions of the Agricultural Adjustment Act. NASS will suspend this information collection as of February 7, 2007 due to budget constraints. NASS will not publish the January Farm Labor report due for release on Friday, February 16, 2007. The Farm Labor reports for April, July, and October 2007 will also not be published unless there is a change in the anticipated budget shortfall.

**Authority:** These data were collected under authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

**Estimate of Burden:** There will be no further public reporting burden for this quarterly collection of information.

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Abstract**

Opportunities to bid for contracts under the NATO Security Investment Program (NSIP) are only open to firms of member NATO countries. NSIP procedures for international competitive bidding (AC/4–D/2261) require that each NATO country certify that their respective firms are eligible to bid such contracts. This is done through the issuance of a “Declaration of Eligibility.” The U.S. Department of Commerce, Bureau of Industry and Security is the executive agency responsible for certifying U.S. firms. ITA–4023P and BIS–4023P are the application forms used to collect information needed to ascertain the eligibility of a U.S. firm. BIS will review applications for completeness and accuracy and determine a company’s viability, technical capability, and security clearances with the Department of Defense.
