Reporting and Recordkeeping Hour Burden:

Responses: 1.

Burden Hours: 1.

Abstract: Although this is rarely used, this process allows grant programs, in a subsequent year of the approved collection, to change their program specific criteria to EDGAR criteria. This process generally relates to programs that have used the 1890-0001 process in a previous year but wish to move one or more criterion to EDGAR in a subsequent year of their approved application. If the program still has program specific requirements, they cannot use the 1890-0009 process and, therefore, must use this process ONLY if some or all program specific criteria will be changing to EDGAR criteria, there are no other substantive changes to the approved application, and the application still contains a program specific requirement. No public comment period notices are required since the Master Plan covers this process, and the individual applications account for their burden under their individual OMB control numbers. ED submits these requests via the OMB83 C (change worksheet) process. A copy of the proposed selection criteria to the approved application is also submitted for review. Based on the original OMB/ED agreement, the clearance time for this process is 10 days at OMB.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 07-179; MM Docket No. 95-31]

FCC Adopts Application Limit for NCE FM New Station Applications in October 12-October 19, 2007 Window

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Commission adopts an application limit in the noncommercial educational FM broadcast application filing window scheduled for October 12-October 19, 2007. The purpose of the limit is to permit the expeditious processing of applications filed in the window and deter speculative filings. The Commission concludes that an appropriate limit for any party is an attributable interest in no more than ten applications for new noncommercial educational FM broadcast stations filed in the window, excluding major

modification applications and pending applications.

DATES: October 12-October 19, 2007 Filing Window for Noncommercial Educational New Station Applications.

ADDRESSES: Secretary, Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554. Internet address: <http://www.fcc.gov>.

FOR FURTHER INFORMATION CONTACT: Irene Bleiweiss, 202-418-2785, Audio Division, Media Bureau.

SUPPLEMENTARY INFORMATION: This is a summary of a *Public Notice* adopted on October 10, 2007, and released on October 10, 2007. The complete text of this document is available for inspection and copying during normal business hours in the FCC Reference Center (Room CY-A257), 445 12th Street, SW., Washington, DC. It is also available on the Commission's Web site at <http://www.fcc.gov>.

Summary of Public Notice: In this document, released on October 10, 2007, the Commission adopts a ten-application limit on noncommercial educational ("NCE") FM new station and major change applications filed by any party during the filing window opening on Friday, October 12, 2007 and closing on Friday, October 19, 2007 for FM reserved band (channels 201-220).

On August 9, 2007, the Commission issued a *Public Notice* (the "Notice") seeking comment on this proposed ten-application limit (published at 72 FR 47039 on August 22, 2007). More than 10,000 comments were filed in response to the *Notice*. The overwhelming majority of the commenters supported the proposed limit of ten new station applications filed by any party during the window. Accordingly, the Commission concludes in this *Public Notice* that an application limit is a lawful and appropriate procedural safeguard to permit the expeditious processing of the window-filed applications with limited Bureau resources and to deter speculation. Our examination of the record confirms our concern that failure to establish a limit on the number of NCE FM applications that a party may file in the window
