[Docket No. CP07-208-001]

#### Rockies Express Pipeline LLC; Notice of Amendment

February 5, 2008.

Take notice that on January 25, 2008, Rockies Express Pipeline LLC (Rockies Express), 370 Van Gordon Street, Lakewood, Colorado 80228, filed an application in Docket No. CP07-208-001, pursuant to section 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's regulations requesting authorization to amend its application to reflect moving the location of its proposed Hamilton Compressor Station in Warren County, Ohio and realigning the pipeline route for 3.9 miles in Warren and Butler Counties, Ohio to adjust for the move. Rockies Express states that the move is for environmental reasons and will result in de minimus change in the cost of its REX-East project, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding this application should be directed to Skip George, Manager of Regulatory, Rockies Express Pipeline LLC, P.O. Box 281304, Lakewood, Colorado 80228-8304, phone (303) 914-4969.

Any person desiring to intervene or to protest this filing must file in

accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. On or before the comment date, it is not necessary to serve motions to intervene or protest on persons other than the Applicant.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit the original and 14 copies of the protest or intervention to the Federal Energy Regulatory

Commission, 888 First Street, NE., Washington, DC 20426.

Take notice that on January 24, 2008, Tennessee Gas Pipeline Company (Tennessee), 1001 Louisiana, Houston, Texas 77002, filed in Docket No. CP08-63-000, an application pursuant to section 7 of the Natural Gas Act (NGA) and Part 157 of the Commission's Regulations seeking authorization to construct the Fitchburg Expansion Project (Project), all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online

Specifically, the Project involves replacing approximately 5.15 miles of six-inch pipe with twelve-inch pipe on Tennessee's Line 268-100, the Fitchburg Lateral (Lateral), in Lunenburg, Worcester County, Massachusetts. The expansion of the Lateral will allow Tennessee to provide 12,300 Dth/d of firm transportation service for the Massachusetts Development Financial Agency (MassDevelopment). Additionally, Tennessee will install a pig launcher at the beginning of the Lateral and a pig receiver at the terminus of the Lateral. Tennessee requests authorization to construct, install, modify, and operate the proposed facilities in order to expand the capacity on its pipeline system to provide the requested service to MassDevelopment. Tennessee's total estimated cost for construction of the Project is \$10.7 million.

Any questions regarding this application should be directed to Jay V. Allen, Senior Counsel, 1001 Louisiana, Houston, Texas 77002, at (713) 420-5589.

The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify Federal and State agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all Federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project.
