

The Louisville Regional Airport Authority, owner of the Louisville International Airport, is proposing to formally release approximately 8.65 acres of airport property so the property can be converted to use for industrial development.

Any person may inspect, by appointment, the request in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT**.

In addition, any person may, upon appointment and request, inspect the request, notice and other documents germane to the request in person at the Louisville Regional Airport Authority, P.O. Box 9129, Louisville, KY 40209-0129.

Issued in Memphis, TN, on February 20, 2008.

Phillip J. Braden,

Manager, Memphis Airports District Office, Southern Region.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Opportunity for Public Comment on Release of Federal Property at Cartersville Airport, Cartersville, GA.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: Under the provisions of Title 49, U.S.C. Section 47153(c), notice is being given that the FAA is considering a request from the Cartersville—Bartow County Airport Authority to waive the requirement that 1.095 acres in fee simple of federal property, located at the Cartersville Airport, be used for aeronautical purposes.

DATES: Comments must be received on or before March 31, 2008.

ADDRESSES: Comments on this notice may be mailed or delivered in triplicate to the FAA at the following address: Atlanta Airports District Office, *Attn:* Aimee A. McCormick, Program Manager, 1701 Columbia Ave., Suite 2-260, Atlanta, GA 30337-2747.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Keith Lovell, Attorney for Cartersville—Bartow County Airport Authority at the following address: 336 S. Tennessee Street, P.O. Box 1024, Cartersville, GA 30120.

FOR FURTHER INFORMATION CONTACT: Aimee McCormick, Program Manager,

Atlanta Airports District Office, 1701 Columbia Ave., Suite 2-260, Atlanta, GA 30337-2747, (404) 305-7143. The application may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA is reviewing a request by the Cartersville—Bartow County Airport Authority to release 1.095 acres of federal property at the Cartersville Airport. The property will be released for purchase by Georgia Department of Transportation (GDOT) to improve and widen Highway 61/113. The net proceeds from the sale of this property will be used for airport purposes. The proposed use of this property is compatible with airport operations.

Any person may inspect the request in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT**. In addition, any person may, upon request, inspect the request, notice and other documents germane to the request in person at the Cartersville—Bartow County Airport Authority.

Issued in Atlanta, Georgia on February 12, 2008.

Larry F. Clark,

Assistant Manager, Atlanta Airports District Office, Southern Region.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Los Angeles County, CA

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA, on behalf of the California Department of Transportation (Caltrans), is issuing this notice to advise the public that a Draft Environmental Impact Statement will be prepared for a proposed highway widening project on Interstate 5 in the cities of Santa Fe Springs, Commerce, Montebello, Downey, and East Los Angeles, in Los Angeles County, California.

FOR FURTHER INFORMATION CONTACT: Ronald Kosinski, Deputy District Director, Caltrans District 7, 100 S. Main Street, Los Angeles, CA 90012 (213) 897-0703.

SUPPLEMENTARY INFORMATION: Effective July 1, 2007, the Federal Highway Administration (FHWA) assigned, and the California Department of Transportation (Caltrans) assumed, environmental responsibilities for this

project pursuant to 23 U.S.C. 327. Caltrans will prepare an Environmental Impact Statement on a proposal for constructing freeway improvements to Interstate 5 (I-5) from Interstate 605 (I-605) though the I-5/Interstate 710 (I-710) interchange in Los Angeles County, California. The project consists of widening I-5 to accommodate High Occupancy Vehicle (HOV) lanes and/or general purpose lanes. Depending on the alternative selected, the project may also include modifications to the I-605 and I-710 interchanges. A Major Investment Study (MIS) for the project was completed in July 1998. It identified a fully standard ten-lane, at-grade facility as the Locally Preferred Alternative (LPA).

The purpose of the proposed project is to (1) improve level of service during AM and PM peak periods, to reduce congestion related delays, and enhance safety and mobility in this segment of the I-5 freeway as compared to the no-build condition; (2) provide continuity of facilities and capacity on the I-5 freeway between the I-605 and I-710 in Los Angeles County; (3) maintain structural flexibility in the freeway corridor for additional future capacity improvements; (4) improve interchange access/egress points and levels of service; (5) improve access to regional transit and HOV facilities; (6) improve mobility on local surface streets operationally interdependent with the freeway corridor by reducing existing and future congestion on both the state and local facilities; and (7) explore Transportation System Management (TSM) improvements for the I-5 and parallel arterials.

Alternatives under consideration include (1) a no-build option; (2) implementing a Transportation System Management/Transportation Demand Management plan; (3) constructing a 10-lane facility with two HOV lanes; and (5) constructing a 12-lane facility (may be constructed in stages depending on availability of funding) with two or four HOV lanes. Alternatives that promote transit use, improve access to the Metro Gold Line Eastside Extension, and engineering designs that are compatible with the alternatives proposed for the I-710 Freeway (including the I-710 Mini-Study) are also important considerations.

These basic alternatives will have additional design variations, which provide optional lane use (general, HOV, or auxiliary use), optional on and off ramp modifications, and other engineering details. These alternatives may be refined, combined with various different alternative elements, or be removed from further consideration, as

more analysis is conducted on the project alternatives.

The following permits would be required to construct the proposed project:

- Section 404 nationwide permit from the U.S. Army Corps of Engineers
- Section 401 Water Quality Certification from the California Regional Water Quality Control Board
- Section 1601 Streambed Alteration Agreement from the California Department of Fish and Game
- Encroachment permits from the various cities in which project construction would occur.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, Participating Agencies, and local agencies, and to private organizations and citizens who have previously expressed or are known to have interest in this proposal. In addition, a public hearing will be held. Public notice will be given of the time and place of the meeting and hearing. The Environmental Impact Statement will be available for public and agency review and comment prior to the public hearing. A Public Scoping meeting is currently scheduled for February 27, 2008 in the City of Commerce.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments, and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to Caltrans at the address provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Nancy Bobb,

Division Administrator, Federal Highway Administration, Sacramento, California.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 34394 (Sub-No. 1)]

Union Pacific Railroad Company— Trackage Rights Exemption—BNSF Railway Company

Pursuant to a written trackage rights agreement dated January 24, 2008, BNSF Railway Company (BNSF) has agreed to modify an existing overhead

trackage rights agreement¹ with Union Pacific Railroad Company (UP) regarding UP's use of a BNSF line of railroad between BNSF milepost 210.2 and BNSF milepost 211.7, a distance of approximately 1.5 miles, in Wichita, KS (joint trackage).

The earliest this transaction can be consummated is March 16, 2008, the effective date of the exemption (30 days after the exemption is filed).²

The purpose of the original trackage rights was to facilitate the City of Wichita's Central Rail Corridor Project (CRC Project), which was designed to minimize rail/vehicle conflicts at existing grade crossings in central Wichita by constructing grade crossings and other improvements on the BNSF route. The agreement inadvertently omitted inclusion of a provision permitting UP to allow the Kansas and Oklahoma Railroad Company to use the joint trackage solely for interchanging traffic with UP on UP trackage at Wichita. According to UP, this provision, which is the modification at issue here, is necessary to achieve the full benefits of the CRC Project.

As a condition to this exemption, any employees affected by the trackage rights will be protected by the conditions imposed in *Norfolk and Western Ry. Co.—Trackage Rights—BN*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980).

This notice is filed under 49 CFR 1180.2(d)(7). If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Stay petitions must be filed by March 7, 2008 (at least 7 days before the exemption becomes effective).

Pursuant to the Consolidated Appropriations Act, 2008, Public Law No. 110-161, § 193, 121 Stat. 1844 (2007), nothing in this decision authorizes the following activities at any solid waste rail transfer facility: Collecting, storing, or transferring solid

¹ The original trackage rights were exempted in *Union Pacific Railroad Company—Trackage Rights Exemption—The Burlington Northern and Santa Fe Railway Company*, STB Finance Docket No. 34394 (STB served Aug. 29, 2003).

² Under 49 CFR 1180.4(g), a railroad must file a verified notice of the transaction with the Board at least 30 days in advance of consummation, in order to qualify for an exemption under 49 CFR 1180.2(d). In this case, the verified notice was filed on February 15, 2008. Therefore, although UP identifies March 15, 2008, as the anticipated consummation date, the earliest the transaction could be consummated is March 16, 2008.

waste outside of its original shipping container; or separating or processing solid waste (including baling, crushing, compacting, and shredding). The term "solid waste" is defined in section 1004 of the Solid Waste Disposal Act, 42 U.S.C. 6903.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34394 (Sub-No. 1), must be filed with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on Robert T. Opal, General Commerce and FRA Counsel, 1400 Douglas Street, Stop 1580, Omaha, NE 68179.

Board decisions and notices are available on our Web site at <http://www.stb.dot.gov>.

Decided: February 21, 2008.

By the Board, David M. Konschnik,
Director, Office of Proceedings.

Anne K. Quinlan,
Acting Secretary.
