

to prevent the interstate spread of serious diseases and pests of livestock within the United States and to eradicate such diseases and pests from the United States when feasible. In connection with this mission, APHIS established regulations in 9 CFR part 53 to pay indemnity to salmon producers in Maine whose fish are destroyed because of infectious salmon anemia (ISA).

ISA is a foreign animal disease of Atlantic salmon, caused by an orthomyxovirus. The disease affects both wild and farmed Atlantic salmon. ISA poses a substantial threat to the economic viability and sustainability of salmon aquaculture in the United States.

In order to take part in the indemnity program, producers must enroll in the cooperative ISA control program administered by APHIS and the State of Maine. Program participants must inform the ISA Program Veterinarian in writing of the name of their accredited veterinarian; develop biosecurity protocols and a site-specific ISA action plan; submit fish inventory and mortality information; assist APHIS or State officials with on-site disease surveillance, testing, and biosecurity audits; and complete an appraisal and indemnity claim form.

Payment is subject to the availability of funding.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the information collection, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the information collection on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of

information is estimated to average 2.981481481 hours per response.

Respondents: Program participants (salmon producers) and their employees, accredited veterinarians, and State animal health officials.

Estimated annual number of respondents: 2.

Estimated annual number of responses per respondent: 108.

Estimated annual number of responses: 216.

Estimated total annual burden on respondents: 644 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 27th day of February 2008.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-P

DEPARTMENT OF AGRICULTURE

National Agricultural Statistics Service

Notice of Intent To Seek Approval To Revise and Extend an Information Collection

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the National Agricultural Statistics Service (NASS) to seek approval to revise and extend a currently approved information collection, the Agricultural Resources Management Survey and Chemical Use Surveys. The following two scheduling changes will be requested. First, chemical use surveys are only requested for fall 2010 to include fruit and postharvest. Thus, no vegetable chemical use survey will be requested. Second, in 2008 only, in lieu of the fall ARMS Phase II Survey, additional questions will be requested for the ARMS Phase III Cost and Returns Report. These questions will focus on a) bio-energy crop adoption and production expenses, and b) impact of tobacco program changes on tobacco marketing. Thus, in 2009, NASS will not publish the 2008 Field Crops Chemical Use report which would have

resulted from a 2008 ARMS Phase II Survey.

DATES: Comments on this notice must be received by May 5, 2008 to be assured of consideration.

ADDRESSES: You may submit comments, identified by docket number 0535-0235, by any of the following methods:

- *E-mail:* ombofficer@nass.usda.gov. Include docket number above in the subject line of the message.
- *Fax:* (202) 720-6396.
- *Mail:* Mail any paper, disk, or CD-ROM submissions to: NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 A, Mail Stop 2024, South Building, 1400 Independence Avenue SW., Washington, DC 20250-2024.
- *Hand Delivery/Courier:* Hand deliver to: NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 A South Building, 1400 Independence Avenue SW., Washington, DC 20250-2024.

FOR FURTHER INFORMATION CONTACT:

Joseph T. Reilly, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, (202) 720-4333.

SUPPLEMENTARY INFORMATION:

Title: Agricultural Resources Management Survey and Chemical Use Surveys.

OMB Control Number: 0535-0218.

Expiration Date of Approval: September 30, 2008.

Type of Request: Intent to revise and extend a currently approved information collection.

Abstract: The Agricultural Resource Management Survey (ARMS) is the primary source of information for the U.S. Department of Agriculture on a broad range of issues related to agricultural resource use and costs and farm sector financial conditions. ARMS is the only source of information available for objective evaluation of many critical issues related to agriculture and the rural economy, such as: whole farm finance data including data sufficient to construct estimates of income for farms by; type of operation, loan commodities, income for operator households, credit, structure, and organization; marketing information, and other economic data on input usage, production practices, and crop substitution possibilities.

Data from ARMS are used to produce estimates of net farm income by type of commercial producer as required in 7 U.S.C. 7998 and estimates of enterprise production costs as required in 7 U.S.C. 1441(a). Data from ARMS are also used as weights in the development of the Prices Paid Index, a component of the

Parity Index referred to in the Agricultural Adjustment Act of 1938. These indexes are used to calculate the annual federal grazing fee rates as described in the Public Rangelands Improvement Act of 1978 and Executive Order 12,548 and as promulgated in regulations found at 36 CFR 222.51. In addition, ARMS is used to produce estimates of sector-wide production expenditures and other components of income that are used in constructing the estimates of income and value-added which are transmitted to the U.S. Department of Commerce, Bureau of Economic Analysis, by the USDA Economic Research Service (ERS) for use in constructing economy-wide estimates of Gross Domestic Product. This transmittal of data, prepared using the ARMS, is undertaken to satisfy a 1956 agreement between the Office of Management and Budget and the Departments of Agriculture and Commerce that a single set of estimates be published on farm income.

The following two scheduling changes will be requested. First, chemical use surveys are only requested for fall 2010 to include fruit and postharvest. Thus, no vegetable chemical use survey will be requested. Second, in 2008 only, in lieu of the fall ARMS Phase II Survey, additional questions will be requested for the ARMS Phase III Cost and Returns Report.

Chemical Use Surveys: Congress has mandated that NASS and ERS build nationally coordinated databases on agricultural chemical use and related farm practices; these databases are the primary vehicles used to produce specified environmental and economic estimates. The surveys will help provide the knowledge and technical means for producers and researchers to address on-farm environmental concerns in a manner that maintains agricultural productivity.

The following two scheduling changes will be requested. First, chemical use surveys are only requested for fall 2010 to include fruit and postharvest. Thus, no vegetable chemical use survey will be requested. Second, in 2008 only, in lieu of the fall ARMS Phase II Survey, additional questions will be requested for the ARMS Phase III Cost and Returns Report.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is

submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13 codified at 44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995).

Estimate of Burden: Public reporting burden for this collection of information is estimated to average approximately 36 minutes per survey.

Respondents: Farmers, ranchers, farm managers, farm contractors, and farm households.

Estimated Number of Respondents: Approximately 61,000 respondents will be sampled each year. Over half of these respondents will be contacted more than one time in a single year.

Estimated Total Annual Burden on Respondents: Approximately 65,000 hours per year. Copies of this information collection and related instructions can be obtained without charge from the NASS Clearance Officer, at (202) 720-5778.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, February 19, 2008.

Joseph T. Reilly,

Associate Administrator.

BILLING CODE 3410-20-P

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).
Title: Weather Modification Activities Reports.

OMB Approval Number: 0648-0025.

Form Number(s): None.

Type of Request: Regular submission.

Burden Hours: 55.

Number of Respondents: 55.

Average Hours Per Response: 30 minutes.

Needs and Uses: Weather Modification Activities Reports are required by Public Law-92-205, Section 6(b). All entities which engage in weather modification (e.g. cloud-seeding to enhance precipitation or disperse fog) are required to report various data to NOAA. NOAA maintains the data for use in scientific research, historical statistics, international reports, and other purposes.

Affected Public: Business or other for-profit organizations; not-for-profit institutions; individuals or households; State, Local or Tribal Government.

Frequency: On occasion and annually.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, FAX number (202) 395-7285, or David_Rostker@omb.eop.gov.

Dated: February 28, 2008.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.
