

Parity Index referred to in the Agricultural Adjustment Act of 1938. These indexes are used to calculate the annual federal grazing fee rates as described in the Public Rangelands Improvement Act of 1978 and Executive Order 12,548 and as promulgated in regulations found at 36 CFR 222.51. In addition, ARMS is used to produce estimates of sector-wide production expenditures and other components of income that are used in constructing the estimates of income and value-added which are transmitted to the U.S. Department of Commerce, Bureau of Economic Analysis, by the USDA Economic Research Service (ERS) for use in constructing economy-wide estimates of Gross Domestic Product. This transmittal of data, prepared using the ARMS, is undertaken to satisfy a 1956 agreement between the Office of Management and Budget and the Departments of Agriculture and Commerce that a single set of estimates be published on farm income.

The following two scheduling changes will be requested. First, chemical use surveys are only requested for fall 2010 to include fruit and postharvest. Thus, no vegetable chemical use survey will be requested. Second, in 2008 only, in lieu of the fall ARMS Phase II Survey, additional questions will be requested for the ARMS Phase III Cost and Returns Report.

Chemical Use Surveys: Congress has mandated that NASS and ERS build nationally coordinated databases on agricultural chemical use and related farm practices; these databases are the primary vehicles used to produce specified environmental and economic estimates. The surveys will help provide the knowledge and technical means for producers and researchers to address on-farm environmental concerns in a manner that maintains agricultural productivity.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is

submitted in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13 codified at 44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320 (60 FR 44978, August 29, 1995).

Estimate of Burden: Public reporting burden for this collection of information is estimated to average approximately 36 minutes per survey.

Respondents: Farmers, ranchers, farm managers, farm contractors, and farm households.

Estimated Number of Respondents: Approximately 61,000 respondents will be sampled each year. Over half of these respondents will be contacted more than one time in a single year.

Estimated Total Annual Burden on Respondents: Approximately 65,000 hours per year. Copies of this information collection and related instructions can be obtained without charge from the NASS Clearance Officer, at (202) 720-5778.

Folding Metal Tables and Chairs from the People's Republic of China: Notice of Extension of Time Limit for the Preliminary Results of the Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce

EFFECTIVE DATE: (March 4, 2008.

FOR FURTHER INFORMATION CONTACT:

Laurel LaCivita or Benjamin Caryl, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482–4243 or (202) 482–3003, respectively.

SUPPLEMENTARY INFORMATION:

Background

On July 26, 2007, the Department of Commerce (“the Department”) published the initiation of the administrative review of the antidumping duty order on folding metal tables and chairs from the People's Republic of China (“PRC”). See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 72 FR 41057 (July 26, 2007). This review covers the period June 1, 2006, through May 31, 2007. The preliminary results of review are currently due no later than March 1, 2008.

Extension of Time Limit for Preliminary Results of Review

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (“the Act”), the Department shall make a preliminary determination in an administrative review of an antidumping duty order within 245 days after the last day of the anniversary month of the date of publication of the order. The Act further provides, however, that the Department may extend that 245-day period to 365 days if it determines it is not practicable to complete the review within the foregoing time period.

The Department finds that it is not practicable to complete the preliminary results of the administrative review of folding metal tables and chairs from the PRC within this time limit. Specifically, due to complex issues related to the selection of surrogate values, we find that additional time is needed to

complete these preliminary results. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time period for completion of the preliminary results of this review by 90 days until May 30, 2008.

This notice is published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: February 27, 2008.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.
