

Court Decision Not in Harmony With Final Results of Administrative Review, 73 FR 3236 (January 17, 2008). On January 20, 2008, the opportunity to appeal the CIT's decision to the CAFC expired. Since no party has appealed this decision to the CAFC, the CIT's decision upholding the Department's

remand redetermination is final and conclusive.

Amended Final Results

The time period for appealing the CIT's final decision to the CAFC has expired and no party has appealed this decision. As there is now a final and conclusive court decision with respect

to litigation for Huarong, LMC/LIMAC, SMC, and TMC, we are amending the final results of review to reflect the findings of the remand results, pursuant to section 516A(e) of the Tariff Act of 1930, as amended ("the Act"). The amended weighted-average margins are as follows:

Exporter	Weighted-Average Margin (Percent)
Shandong Huarong Machinery Corporation Limited (Huarong). Bars/Wedges	139.31
Liaoning Machinery Import & Export Corporation (LMC)/. Liaoning Machinery Import & Export Corporation Ltd. (LIMAC). Bars/Wedges	139.31
Shandong Machinery Import & Export Corporation (SMC). Bars/Wedges	4.05
Tianjin Machinery Import & Export Corporation (TMC). Axes/Adzes	10.39
Bars/Wedges	139.31
Hammers/Sledges	6.38
Picks/Mattocks	4.61

Assessment Rates

The Department will determine, and U.S. Customs and Border Protection ("CBP") shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we have calculated importer-specific assessment rates. Where the importer-specific assessment rate is above *de minimis* on an *ad valorem* basis, calculated by dividing the dumping margins found on examined subject merchandise by the estimated entered value, we will instruct CBP to assess antidumping duties on that importer(s) entries of subject merchandise. In accordance with 19 CFR 351.106(c)(2), we will instruct CBP to liquidate without regard to antidumping duties any entries for which the importer-specific assessment rate is *de minimis* (i.e., less than 0.5 percent *ad valorem*). Since the actual entered value of the merchandise was not reported to the Department, we have divided, where applicable, the total dumping margins (calculated as the difference between NV and export price) for each importer by the total number of units sold to the importer. We will direct CBP to assess the resulting unit dollar amount against each unit of subject merchandise entered by the importer during the POR. The Department will issue appropriate assessment instructions directly to CBP 15 days after publication of these amended final results of review.

This notice is published in accordance with section 516A(e) of the Act.

Dated: February 26, 2008.

David M. Spooner,

Assistant Secretary for Import Administration.

International Trade Administration

[A-570-601]

Tapered Roller Bearings and Parts Thereof, Finished or Unfinished, from the People's Republic of China: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: March 4, 2008.

FOR FURTHER INFORMATION CONTACT: Paul Stolz, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4474.

SUPPLEMENTARY INFORMATION:

Background

On July 26, 2007 the Department of Commerce ("the Department") initiated an administrative review of the antidumping duty order on tapered roller bearings and parts thereof, finished or unfinished ("TRBs"), from the People's Republic of China ("PRC") for the period June 1, 2006 through May 31, 2007. The preliminary results of this review are currently due no later than

March 1, 2008. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 72 FR 41057 (July 26, 2007).

Extension of Time Limit of Preliminary Results.

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue preliminary results within 245 days after the last day of the anniversary month of an order. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time period to a maximum of 365 days. Completion of the preliminary results of this review within the 245-day period is not practicable because the Department needs additional time to analyze information pertaining to the respondents' reporting methodology with respect to U.S. sales, to evaluate certain issues raised by the petitioners, and to issue and review responses to supplemental questionnaires.

Because it is not practicable to complete this review within the time specified under the Act, we are fully extending the time period for issuing the preliminary results of review to 365 days until June 29, 2008, in accordance with section 751(a)(3)(A) of the Act. Because this deadline falls on a weekend, the appropriate deadline is the next business day (i.e., Monday). Therefore, we will issue the preliminary results no later than June 30, 2008. The final results continue to be due 120 days after the publication of the preliminary results. This notice is published

pursuant to sections 751(a) and 777(i) of the Act.

Dated: February 27, 2008.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Proposed Information Collection; Comment Request; Evacuation Movement and Behavior Questionnaires

AGENCY: National Institute of Standards and Technology (NIST), Department of Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before May 5, 2008.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Erica Kuligowski, erica.kuligowski@nist.gov, 301-975-2309.

SUPPLEMENTARY INFORMATION:

I. Abstract

NIST will be collecting data on evacuation behavior and movement of occupants from approximately 50 high-rise buildings' evacuation drills in cities across the United States at a rate of several buildings per year. The high-rise buildings of interest include buildings of varying heights (e.g., 1-10 stories, 11-20 stories, 21-35 stories, and 35+ stories) and of varying occupancy types (e.g., residential, office, and assembly occupancies).

The proposed data collection will consist of questionnaires that will be distributed, by city or building's fire

department staff or NIST staff, to occupants who have evacuated previously-identified high-rise buildings as a part of a scheduled evacuation drill. The purpose of these questionnaires is to obtain information (anonymously) on: (1) The background of the occupant (occupant demographics, previous training and education in fire safety, and previous experience in fire evacuations); (2) actions and decisions made by the occupant on his/her floor during the building evacuation; and (3) actions and decisions made by the occupant during the building evacuation via the stairs and/or elevators. This information is necessary to better inform building and life safety code requirements, building occupant education and training about fire safety, and tools that are currently used to assess the life safety of high-rise buildings in the United States.

II. Method of Collection

This data will be collected via paper questionnaires. Either fire department staff will collect the questionnaires from the buildings or each questionnaire will be equipped with an NIST-address-stamped envelope and pre-paid postage.

III. Data

OMB Control Number: None.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Individuals or households.

Estimated Annual Number of Respondents: 6,666.

Estimated Time Per Response: 10 minutes.

Estimated Total Annual Burden Hours: 1,111.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection;

they also will become a matter of public record.

Dated: February 28, 2008.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

Notice of Government Owned Invention Available for Licensing

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice of jointly owned invention available for licensing.

SUMMARY: The invention listed below is jointly owned by the U.S. Government as represented by the Department of Commerce, and Cree Inc. The invention is available for licensing in accordance with 35 U.S.C. 207 and 37 CFR part 404 to achieve expeditious commercialization of results of federally funded research and development.

FOR FURTHER INFORMATION CONTACT:

Technical and licensing information on this invention may be obtained by writing to: National Institute of Standards and Technology, Office of Technology Partnerships, Attn: Mary Clague, Building 222, Room A155, Gaithersburg, MD 20899. Information is also available via telephone: 301-975-4188, fax 301-975-3482, or e-mail: mary.clague@nist.gov. Any request for information should include the NIST Docket number and title for the invention as indicated below.

SUPPLEMENTARY INFORMATION: NIST may enter into a Cooperative Research and Development Agreement ("CRADA") with the licensee to perform further research on the invention for purposes of commercialization. The invention available for licensing is: [NIST DOCKET NUMBER: 06-008]

Title: Power Switching Semiconductor Devices Including Rectifying Junction-Shunts.

Abstract: Typical applications for switching power devices (e.g., IGBT or Power MOSFET) require reverse conduction for rectification or clamping by either an internal or external diode. Because Power MOSFETs have an inherent PiN diode within the structure, this internal diode must either be made to work effectively for the rectification and clamping, or must be bypassed by an external diode. Because the inherent internal PiN diode results in majority
