

public comment and coordination with State and local governments or other Federal agencies. The criteria developed for the Calnev Project EIS/EIR include the following:

1. Comply with applicable laws, Executive Orders, and regulations.
2. Minimize deviations from the existing utility corridor to the extent feasible.
3. Select an alignment in consideration of its effects on other critical linear public utilities and transportation corridors.
4. Analyze a corridor modification that reestablishes a complete corridor along I-15 adequate to accommodate the current Calnev project and anticipated future projects and that avoids crossing lands within the Mojave National Preserve.

BLM must take into consideration state law when granting the ROW. The EIS/EIR will describe and analyze the proposed project as proposed and will include: (1) BLM measures to avoid, minimize, or mitigate impacts on the environment; (2) Additional mitigation measures; (3) The "No Action" alternative; and (4) Alternative pipeline routes, segments or other distribution methods. Through public scoping BLM expects to identify various issues, potential impacts and mitigation measures. BLM has identified a potential list of issues that will need to be addressed in this analysis including but not limited to: Air quality; social and economic, traffic; ground and surface water quantity and quality; plant and animal species including special status species; cultural resources; visual resources; and public health and safety. If approved, this pipeline project on public lands would be authorized in accordance with the Mineral Leasing Act at Title 30, Chapter 3A, Subchapter I, Subsection 185.

The areas described contain 230.26 acres, more or less.

Clark County has filed R&PP applications to develop the above described land as six public parks. Additional detailed information pertaining to this application, plan of development, and site plan are in the case files, which are located in the Bureau of Land Management (BLM) Las Vegas Field Office.

Clark County is a political subdivision of the State of Nevada and is therefore a qualified applicant under the R&PP Act. The land is not required for any Federal purpose. The lease/conveyance is consistent with the BLM Las Vegas Resource Management Plan, dated October 5, 1998, and would be in the public interest. The plans of development have been reviewed and it is determined the proposed action conforms with land use plan decision, LD-1, established in accordance with section 202 of the Federal Land Policy and Management Act, as amended (43 U.S.C. 1712). The lease/conveyance, when issued, will be subject to the provisions of the R&PP Act and applicable regulations of the Secretary of the Interior, and will contain the following reservations to the United States:

1. A right-of-way thereon for ditches or canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945).

2. All minerals shall be reserved to the United States, together with the right to prospect for, mine and remove such deposits from the same under applicable law and such regulations as the Secretary of the Interior may prescribe.

The lease/conveyance will be subject to:

Upon publication of this notice in the **Federal Register**, the land described above will be segregated from all other forms of appropriation under the public land laws, including the general mining laws, except for lease and subsequent conveyance under the R&PP Act, leasing under the mineral leasing laws, and disposals under the mineral material disposal laws.

Interested parties may submit written comments regarding the specific use proposed in the application and plan of development, whether BLM followed proper administrative procedures in reaching the decision to lease/convey

under the R&PP Act, or any other factor not directly related to the suitability of the land for R&PP use.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. Only written comments submitted by postal service or overnight mail to the Field Manager, BLM Las Vegas Field Office, will be considered properly filed. Electronic mail, facsimile, or telephone comments will not be considered properly filed.

Any adverse comments will be reviewed by the BLM Nevada State Director, who may sustain, vacate, or modify this realty action. In the absence of any adverse comments, this realty action will become the final determination of the Department of the Interior and will become effective on May 12, 2008. The lands will not be available for lease/conveyance until after the decision becomes effective.

SUPPLEMENTARY INFORMATION:

Title: Potomac Gorge Survey.

Bureau Form Number: None.

OMB Number: To be requested.

Expiration Date: To be requested.

Type of Request: New Collection.

Description of Need: The Potomac Gorge is a 15-mile stretch along the Potomac River, crossing jurisdictions in the states of Maryland, Virginia, and the District of Columbia. Public parkland in the Gorge includes the NPS's Chesapeake and Ohio Canal National Historical Park and George Washington Memorial Parkway. The Nature Conservancy and Potomac Conservancy own and protect areas in the Gorge. In addition, other public and private lands are included in the 10,000-acre area. The Gorge is one of the country's most biologically diverse areas, home to more than 1,400 plant species. The NPS has documented at least 30 distinct natural vegetation communities, several of which are globally rare and imperiled. The Potomac Gorge Site Conservation Plan (SCP), developed by the NPS and The Nature Conservancy, identifies conservation targets, analyzes threats to these targets, and presents strategies for mitigating environmental problems currently observed in the Potomac Gorge. Identified threats include both internal impacts inherent to a heavily
