Title: Reporting and Recordkeeping Requirements for Importation of Nonroad Engines and Recreational Vehicles (Renewal).

ICR Numbers: EPA ICR No. 1723.05, OMB Control No. 2060-0320.

ICR Status: This ICR is scheduled to expire on May 31, 2008. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Individuals and businesses importing on and off-road motor vehicles, motor vehicle engines, or nonroad engines, including nonroad engines incorporated into nonroad equipment or nonroad vehicles, report and keep records of vehicle and engine importations, request prior approval for vehicle and engine importations, or request final admission for vehicles and engines conditionally imported into the U.S. The collection of this information is mandatory in order to ensure compliance of nonroad vehicles and engines with Federal emissions requirements. Joint EPA and Customs regulations at 40 CFR 89.601 *et seq.*, 90.601 *et seq.*, 91.703 *et seq.*, 92.803 *et seq.*, 94.803 *et seq.*, 1068.301 *et seq.*, and 19 CFR 12.73 and 12.74 promulgated under the authority of Clean Air Act Sections 203 and 208 give authority for the collection of information. This authority was

extended to nonroad engines and vehicles under section 213. The information is used by program personnel to help ensure that all Federal emission requirements concerning imported motor vehicles and nonroad engines are met.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.5 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Individual importers and companies who import, or import and manufacture, nonroad engines and recreational vehicles.

Estimated Number of Respondents: 4,801.

Frequency of Response: Upon importation.

Estimated Total Annual Hour Burden: 6,029.

Estimated Total Annual Cost: \$372,541, which includes \$36,002 annualized capital and O&M costs.

Changes in the Estimates: There is a decrease of 80,107 hours in the total estimated burden. This decrease is due to a more accurate estimate of the number of import declaration forms (Form 3520-1) received. The burden for nonroad CI use (Form 3520-8) has been reduced to a placeholder, as this program is not currently in use.

Dated: March 13, 2008.

Director, Collection Strategies Division.

Needs and Uses: The Telecommunication Act of 1996 (1996 Act) directed the Commission to initiate a rulemaking to reform the system of universal service so that universal service is preserved and advanced as markets move toward competition. To fulfill that mandate, on March 8, 1996, the Commission adopted a *Notice of Proposed Rulemaking (NPRM)* in CC Docket No. 96-45 to implement the congressional directives set out in section 254 of the Communications Act of 1934, as amended by the 1996 Act. Pursuant to section 254(a)(1), the *NPRM* also referred numerous issues related to universal service to a Federal-State Joint Board for recommended decision. On November 8, 1996, the Joint Board released a Recommended Decision in which it made recommendations to

assist and counsel the Commission in the creation of an effective universal service support mechanism that would ensure that the goals of affordable, quality service and access to advanced services are met by means that enhance competition. On November 18, 1996, the Commission's Common Carrier Bureau released a *Public Notice* (DA 96-1891) seeking public comment on the issues addressed and recommendations made by the Joint Board in the Recommended Decision. In a *Report and Order* issued in CC Docket No. 96-45, released on May 8, 1997, and other proceedings, the Commission adopted rules that were designed to implement the universal service provisions of section 254.

On August 29, 2007, the Commission released the *Report and Order*, 2007 Comprehensive Review of the Universal Service Fund Management, Administration and Oversight, WC Docket Nos. 05-195, 02-60, 03-109 and CC Docket Nos. 96-45, 02-6, 97-21, FCC 07-150. In this order, the Commission took several further steps to safeguard the Universal Service Fund from waste, fraud, and abuse, including imposing document retention rules on all universal service programs and program contributors.

Federal Communications Commission.
