

Therefore, if satellite carriers elect to carry significantly viewed signals, they are required to provide notifications to local broadcast stations informing them of their rights to elect mandatory carriage or retransmit consent on a county basis.

47 CFR 76.66(m) states whenever a local broadcast station believes that a satellite carrier has failed to meet its obligations under this section, such station shall notify the carrier, in writing, of the alleged failure and identify its reason for believing that the satellite carrier failed to comply with its obligations.

The satellite carrier shall, within 30 days of such written notification, respond in writing to such notification and comply with such obligations or state its reasons for believing that it is in compliance. A local station that disputes a satellite carrier's response may obtain review of such response by filing a complaint with the Commission in accordance with 47 CFR 76.7 of the rules.

Needs and Uses: Section 207 of the Telecommunications Act of 1996 ("1996 Act") directs the Commission to promulgate rules prohibiting restrictions on viewers' ability to receive over-the-air signals by television broadcast, multichannel multipoint distribution, or direct broadcast satellite services.

In a Report and Order, Memorandum Opinion and Order and Further Notice of Proposed Rulemaking, CS Docket No. 96-83, FCC 96-328, released August 6, 1996, the Commission fully implemented Section 207 of the 1996 Act by adopting final rules for a preemption of state, local and non-governmental regulations that impair viewers' ability to receive over-the-air signals. In doing so, the FCC acknowledged the necessity of allowing state, local and non-governmental entities to continue to enforce certain regulations and restrictions, such as

those serving safety purposes, and therefore exempted them from its prohibition. Also, state, local and non-governmental entities were permitted to file petitions for waivers.

On September 25, 1998, the Commission released an Order on Reconsideration, FCC 98–214, in this proceeding that further modified and clarified Section 207 rules. Among other things, the Order on Reconsideration clarified how declaratory rulings and waivers in this matter are to be served on all interested parties. If a local government seeks a declaratory ruling or a waiver, it must take steps to afford reasonable, constructive notice to residents in its jurisdiction (e.g., by placing notices in a local newspaper of general circulation). Certificates of service and proof of constructive notice also must be provided to the Commission with the petition. In this regard, the petitioner should provide the Commission with a copy of the notice and an explanation of where the notice was placed and how many people the notice might reasonably have reached.

Title: Handling Confidential Information.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions; Federal Government; and State, Local, or Tribal Government.

Number of Respondents and Responses: 2,400 respondents; 2,400 responses.

Estimated Time per Response: 1 to 2 hours.

Obligation to Respond: Required to obtain or retain benefits.

Frequency of Response: Recordkeeping; On occasion reporting requirement; Third party disclosure.

Total Annual Burden: 4,200 hours.

Total Annual Cost: \$0.00.

Privacy Impact Assessment: N/A.

Nature of Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the FCC. Respondents may, however, request confidential treatment for information they believe to be confidential under 47 C.F.R. Section 0.459 of the Commission's rules.

Needs and Uses: On August 4, 1998, the FCC released a *Report and Order* (R&O), Examination of Current Policy Concerning the Treatment of Confidential Information Submitted to the Commission, CG Docket No. 96–55.

The R&O included a Model Protective Order (MPO) that is used, when appropriate, to grant limited access to information that the Commission determines should not be routinely available for public inspection. The party granted access to the confidential information materials must keep a written record of all copies made and provide this record to the submitted of the confidential materials upon request. This approach was adopted to facilitate the use of confidential materials under an MPO, instead of restricting access to materials. In addition, the FCC amended 47 CFR 0.459(b) to set forth the type of information that should be included when a party submits information to the Commission for which it seeks confidential treatment. This listing of types of information to be submitted was adopted to provide guidance to the public for confidentiality requests.
