2. Youth Transition Process Demonstration Evaluation Data Collection—0960-0687

Background

The purpose of the Youth Transition Demonstration (YTD) project is to help young people with disabilities make the transition from school to work. While participating in the project, youth can continue to work and/or continue their education because SSA waives certain disability program rules and offers services to youth who are receiving disability benefits or have a high probability of receiving them. We will fully implement YTD projects in 10 sites across the country. The evaluation will

produce empirical evidence on the effects of the waivers and project services including educational attainment, employment, earnings, and receipt of benefits by youth with disabilities but also on the Social Security Trust Fund and federal income tax revenues. This type of project is authorized by Sections 1110 and 234 of the Social Security Act.

Project Description

Given the importance of estimating YTD effects as accurately as possible, we will evaluate the project using rigorous analytic methods based on randomly assigning youth to a treatment

or control group. We will conduct several data collections.

These include (1) baseline interviews with youth and their parents or guardians prior to random assignment; (2) followup interviews at 12 and 36 months after random assignment; (3) interviews and/or roundtable discussions with local program administrators, program supervisors, and service delivery staff; and (4) focus groups of youths, their parents, and service providers. The respondents are youths with disabilities enrolled in the project; their parents or guardians; program staff; and service providers.

Type of Request: Revision of an existing OMB Clearance.
