Any questions regarding this application should be directed to counsel for CBGS, Douglas F. John, John & Hengerer, 1730 Rhode Island Avenue, NW., Suite 600, Washington, DC 20036, or via telephone at (202) 429-8800, facsimile number (202) 429-8805, or e-mail djohn@jhenergy.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition

to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). application, pursuant to section 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's Rules and Regulations, for a certificate of public convenience and necessity authorizing Algonquin to construct, own, operate and maintain an approximately 2.3 miles of 14-inch diameter pipeline loop from the head of the existing J-2 Lateral in Medford, Massachusetts (J-2 Loop). Also, the J-2 Loop will provide NSTAR additional capacity to meet increased demand and to ensure reliability of service. The J-2 Loop will have a total design capacity of 140,000 Dth/d, and a maximum allowable operating pressure of 433 psi. Algonquin proposes to implement initial Section 7(c) rates and related tariff provisions for services on the J-2 Loop pursuant to Rate Schedule AFT-CL and AIT-2. The entire capacity created by the J-2 Loop project has been subscribed by NSTAR under the J-2 Facility Firm Service Agreement, which specifies a long-term firm commitment for 20 years from the in-service date of the project. Algonquin proposes a service date of September 1, 2009.

Any questions regarding the application are to be directed to Garth Johnson, General Manager, Certificates and Reporting, Algonquin Gas Transmission, LLC, 5400 Westheimer Court, P.O. Box 1642, Houston, TX 77251-1642; phone number (713) 627-5415 or by e-mail at gjohnson@spectraenergy.com.
