SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0999.

Title: Section 20.19, Hearing Aid-Compatible Mobile Handsets (Hearing Aid-Compatibility Act).

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 925 respondents; 950 responses.

Estimated Time Per Response: 13.2 hours average burden per response.

Frequency of Response: On occasion and annual reporting requirements and third party disclosure requirement (labeling/posting requirements).

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 12,600 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: Information requested in the reports may include confidential information. However, covered entities would be allowed to request that such materials submitted to the Commission be withheld from public inspection (see 47 CFR 0.459 of the Commission's rules).

Needs and Uses: The Commission will submit this information collection (IC) to the OMB as a revision during this comment period to obtain the full three-year clearance from them. This information collection was pre-approved by the Office of Management and Budget (OMB) when the Commission adopted the Notice of Proposed Rulemaking on 12/27/07.

[Previously approved was a Report and Order adopted in 2003 in which the Commission modified the exemption for telephones used with public mobile services from the requirements of the Hearing Aid Compatibility Act of 1988 (HAC Act). The Order required digital wireless phone manufacturers and service providers to make certain digital wireless phones capable of effective use with hearing aids. As part of that Order, manufacturers and service providers

were required to label certain phones they sold with information about their compatibility with hearing aids, and also to report to the Commission (at first every six months, then on an annual basis) on the number and types of hearing aid-compatible phones they were producing or offering to the public.]

Now, the Commission has adopted and released a *Report and Order*, FCC 08–68, which updated several of the performance benchmarks for manufacturers and service providers, instituted new requirements for manufacturers to refresh their product lines and for service providers to offer hearing aid-compatible handset models with differing levels of functionality, adopted a new version of the technical standard for measuring hearing aid compliance, and addressed the application of the rules to phones that operate in multiple frequency bands or air interfaces. To assist the Commission in monitoring the implementation of the new requirements and to provide information to the public, the *Report and Order* also requires manufacturers and service providers to continue to file annual reports on the status of their compliance with these requirements, and requires manufacturers and service providers that maintain public Web sites to publish up-to-date information on those Web sites regarding their hearing aid-compatible handset models. The annual reports required in this *Order* contain different and additional information than in previous versions of this information collection (see above). Those requirements, along with the requirement to post certain information on Web sites, are intended to give consumers the information they need to navigate a technically complex and rapidly changing world of hearing aid-compatible wireless phones, and to allow the Commission to monitor compliance with its new regulations. Finally, in order to avoid potential consumer confusion over technical capabilities, the *Order* modified the product labeling requirements slightly.
