

security sphere by systematically reviewing the Commerce Control List, with advice from independent experts, to eliminate those items and technologies that have little or no such consequences.”

The DEAC's recommendations contained in the report constitute a written request from representatives of a substantial segment of an industry that produces goods or technology subject to export controls, a requirement under Section 5(h) of the EAA for the establishment of a technical advisory committee. Specifically, the DEAC's members were senior officials with significant experience in business, educational research, and national homeland security matters related to scientific and engineering knowledge. As such, they represented a substantial segment of an affected industry that produces items subject to export controls, namely, the U.S. technology community, which is engaged in producing technical data and providing technical assistance.

Finally, the President issued a *Dual-Use Trade Reform* directive on January 22, 2008 that called for export controls to be constantly reassessed to ensure that they control the export and reexport of sensitive items while minimizing their impact on U.S. economic competitiveness and innovation. In order to meet this objective, the President directed the Secretary of Commerce to develop a regularized process that would consider input by technical advisory committees in the review and updating of the CCL.

The ETRAC will be charged with identifying emerging technologies and research and development activities that may be of interest from a dual-use perspective, prioritizing new and existing controls related to deemed exports to determine which are of greatest consequence to national security, and examining how research is performed to understand the impact that the Export Administration Regulations have on academia, federal laboratories, and industry.

Emerging Technology and Research Advisory Committee (ETRAC): Notice of Recruitment of Members [The membership is drawn from both private and public sectors, based on the description below as well as the draft charter.]

BIS is recruiting members for the ETRAC. The ETRAC will comprise a maximum of 25 members and will feature a balanced membership that will include diverse points of view. It will consist of experts from academia, federal laboratories, and industry to ensure a comprehensive discussion of

emerging technologies and research and development activities and their implications with regard to national and economic security. ETRAC members will be appointed by the Secretary of Commerce and serve a term of not more than one year. Each member will be required to hold a secret security clearance prior to appointment. These clearances are necessary so that members may be permitted access to sensitive intelligence and law enforcement information related to the ETRAC's mission. The ETRAC will also reach out to other government and non-government experts to ensure a broad and thorough review of the issues.

To respond to the recruitment notice, please send a copy of your resume to the individual identified under the **ADDRESSES** heading. This Notice of Recruitment will be open until June 24, 2008.

Dated: May 20, 2008.

SUPPLEMENTARY INFORMATION:

I. Abstract

Title III of the Export Trading Company Act (hereinafter “the Act”) of 1982 (Pub. L. 97–290, 15 U.S.C. 4001 *et seq.*), authorizes the Secretary of Commerce to issue, with the concurrence of the Attorney General, an Export Trade Certificate of Review to any person that establishes that its proposed export trade, export trade activities, and methods of operation meet the four standards found in Section 303 (a) of the Act, 15 U.S.C. 4001 *et seq.* An Export Trade Certificate of Review provides the certificate holder and its members with limited antitrust immunity for specified export-related activities. Application for an Export Trade Certificate of Review is voluntary. The information to be collected is found at 15 CFR part 325—Export Trade Certificates of Review. The collection of information is necessary for both the Departments of Commerce and Justice to conduct an antitrust analysis, in order to determine whether the applicant’s proposed export-related conduct meets the standards in Section 303(a) of the Act. The collection of information constitutes the essential basis of the statutory determinations to be made by the Secretary of Commerce and the Attorney General.

The Department of Commerce conducts its economic and legal analysis of the information supplied by applicants through Export Trading Company Affairs and the Office of the General Counsel. In the Department of Justice, analysis is conducted by the Antitrust Division.

Title III was enacted to reduce uncertainty regarding the application of U.S. antitrust laws to export activities—especially joint export activities involving domestic competitors. Among

other benefits, the Export Trade Certificate of Review provides its holder and members named in the Certificate with (a) immunity from government actions under state and federal antitrust laws for the export conduct specified in the Certificate, and (b) some protection from frivolous private suits, by limiting liability in private actions to actual damages when the challenged activities are covered by an Export Trade Certificate of Review.

DEPARTMENT OF COMMERCE

**Submission for OMB Review;
Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: International Trade Administration.

Title: Foreign-Trade Zones Application.

OMB Control Number: 0625–0139.

Form Number(s): None.

Type of Request: Regular submission.

Burden Hours: 6,651.

Number of Respondents: 74.

Average Hours per Response: 38 to 151 hours (depending on type of application).

Needs and Uses: The Foreign-Trade Zone Application is the vehicle by which individual firms or organizations apply for foreign-trade zone (FTZ) status, subzone status, or expansion of an existing zone. The FTZ Act and regulations require that an application with a description of the proposed project be made to the FTZ Board (19 U.S.C. 81b and 81f; 15 CFR 400.24–26) before a license can be issued or a zone can be expanded. It is also required that applications contain detailed information on facilities, financing, operational plans, proposed manufacturing operations, need, and economic impact. The manufacturing activity in zones, which is primarily conducted in subzones, can involve issues related to domestic industry and trade policy impact. Such applications must include specific information on the Customs tariff-related savings that result from zone procedures and the economic consequences of permitting such savings. The FTZ Board needs complete and accurate information on the proposed operation and its economic effects because the Act and regulations authorize the Board to restrict or prohibit operations that are detrimental to the public interest.

Affected Public: State, local, or tribal government; not-for-profit institutions; and business or other for-profit organizations.

Frequency: On occasion.

Respondent’s Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395–3897.
