The BIA published a Notice of Intent to prepare an EIS for the original application on April 19, 2006, in the *Federal Register* (71 FR 20126). The notice included project details, which remain unchanged in the renewed application. As this notice on the renewed application in effect resumes work on the EIS, public scoping for the issues and alternatives to be analyzed in the EIS has already been done. The BIA will not, therefore, hold any additional public scoping meetings. This notice, however, does provide the public another 30-day period to submit comments on what should be covered in the EIS.

Areas of environmental concern identified for analysis in the EIS include land resources, water resources, biological resources, cultural resources, traffic and transportation, noise, air quality, public health/environmental hazards, public services and utilities, hazardous waste and materials, socio-economics, environmental justice and visual resources/aesthetics. In addition to the proposed action, alternatives identified for analysis include no-action, reduced-intensity development and two alternate sites. The range of issues and alternatives are open to expansion based on comments received in response to this notice.

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-533]

In the Matter of Certain Rubber Antidegradants, Components Thereof, and Products Containing Same; Remand of Investigation to Presiding Administrative Law Judge; Rescission of Limited Exclusion Order

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined to remand the above-captioned investigation to the presiding administrative law judge ("ALJ") for proceedings consistent with the December 21, 2007 judgment of the U.S. Court of Appeals for the Federal Circuit in *Sinorgchem Co., Shandong v. International Trade Commission*, 511 F.3d 1132 (Fed. Cir. 2007). The Commission has also determined to rescind the limited exclusion order previously issued in this investigation.

FOR FURTHER INFORMATION CONTACT: James A. Worth, Office of the General Counsel, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone (202) 205-3065. Copies of non-confidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436, telephone (202) 205-2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>). The public record for this investigation may be viewed on the Commission's electronic docket (EDIS) at <http://edis.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on March 29, 2005, based on a complaint brought by Flexsys America L.P. ("Flexsys"), alleging a violation of section 337 in the importation, the sale for importation, or the sale after importation of certain rubber antidegradants, components thereof, or products containing same by reason of infringement of claims 30 or 61 of U.S. Patent No. 5,117,063 ("the '063 patent"), or claims 7 or 11 of U.S. Patent No. 5,608,111 ("the '111 patent"), or claims 1, 32, or 40 of U.S. Patent No. 6,140,538 ("the '538 patent"). 70 FR 15,855 (Mar. 29, 2005). The patents teach processes for the production of 4-ADPA and alkylated derivatives of 4-ADPA. One of these alkylated derivatives, 6-PPD, is used to prevent the degradation of rubber.

The complaint named as respondents Sinorgchem Co. ("Sinorgchem") of Shandong, China, as well as Sovereign Chemical Company ("Sovereign"), Korea Kumho Petrochemical Co., Ltd. ("KKPC"), Vilax Corporation ("Vilax"), and Stolt-Nielson Transportation Group Ltd. ("Stolt-Nielson"). It was alleged that the accused rubber antidegradant products were made using the patented processes. The investigation was terminated with regard to the '538 patent, and with regard to Vilax and Stolt-Nielson.

On February 16, 2006, the ALJ issued his final initial determination ("final ID" or "ID"). The ALJ found that Sinorgchem and Sovereign had violated section 337 by infringing the asserted claims of the '063 and '111 patents, but found that KKPC had not. All parties
