Needs and Uses: Congress has mandated that after February 17, 2009, full-power television broadcast stations must transmit only in digital signals, and may no longer transmit analog signals. On December 31, 2007, the Commission released a Report and Order, In the Matter of the Third Periodic Review of the Commission's Rules and Policies Affecting the Conversion to Digital Television, MB Docket No. 07-91, FCC 07-228. In the Report and Order, the Commission adopted rules to ensure that, by the February 17, 2009 transition date, all full-power television broadcast stations (1) cease analog broadcasting and (2) complete construction of, and begin operations on, their final, full-authorized post-transition (DTV) facility. The Commission recognized that broadcasters may need regulatory flexibility in order to achieve these goals. Accordingly, the Commission authorized the following "DTV Transition-related" filings, which must be made electronically via the FCC's Consolidated Database System ("CDBS"), to permit broadcasters to

request and obtain regulatory flexibility from the Commission, if necessary, to meet their DTV construction deadlines:

- *STA for Phased Transition and Continued Interim Operations.* Stations may file a request for Special Temporary Authorization (STA) approval to temporarily remain on their in-core, pre-transition DTV channel after the transition date through the CDBS using the Informal Application Filing Form.

- *STA for Phased Transition/Build-Out.* Stations may file a request for STA approval to build less than full, authorized post-transition facilities by the transition date through the CDBS using the Informal Application Filing Form.

- *STA for Permanent Service Reduction or Termination.* Stations may file a request for STA approval to permanently reduce or terminate analog or pre-transition DTV service where necessary to facilitate construction of final, post-transition facilities through the CDBS using the Informal Application Filing Form.

- *Notification/Informal Letter of Temporary Service Disruption.* Stations may file a notification or informal letter pursuant to 47 CFR 73.1615 to temporarily reduce or cease existing analog or pre-transition DTV service where necessary to facilitate construction of final, post-transition facilities through the CDBS using the Informal Application Filing Form.

- *Notification of Service Reduction or Termination.* Stations may file a notification to permanently reduce or terminate analog or pre-transition DTV service within 90 days of the transition date through the CDBS using the Informal Application Filing Form.

- *Informal Filings.* Stations claiming a "unique technical challenge" warranting a February 17, 2009 construction deadline may file a notification to document their status through the CDBS using the Informal Application Filing Form.

47 CFR 73.1635 states that broadcast stations (licensees or permittees) may file a request for Special Temporary Authority (STA) approval to permit a station to operate a broadcast facility for a limited period at a specified variance from the terms of the station's authorization or requirements of the FCC rules. Stations may file a request for STA approval for a variety of reasons. The request must describe the operating modes and facilities to be used.
