Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic; Snapper-Grouper Fishery, Shrimp Fishery, Sargassum, Dolphin/Wahoo, Spiny Lobster, Golden Crab, and Coral, Coral Reefs, and Live/Hard Bottom Habitat off the Southern Atlantic States; Comprehensive Amendment

AGENCY: National Marine Fisheries
Service (NMFS), National Oceanic and
Atmospheric Administration (NOAA),
Commerce.

ACTION: Notice of intent (NOI) to
prepare a draft environmental impact
statement (DEIS); notice of scoping
meetings; request for comments.

SUMMARY: The South Atlantic Fishery
Management Council (Council) intends
to prepare a DEIS to assess impacts on
the natural and human environment of
management measures proposed in its
draft Comprehensive Amendment to the
Fishery Management Plans (FMPs) for
the Coastal Migratory Pelagic Resources
of the Gulf of Mexico and South
Atlantic Region; and the Snapper-
Grouper Fishery, Shrimp Fishery,
Sargassum, Dolphin/Wahoo, Spiny
Lobster, Golden Crab, and Coral, Coral
Reefs, and Live/Hard Bottom Habitat in
the South Atlantic Region to address
allocations.

DATES: Written comments on the scope
of the issues to be addressed in the DEIS
will be accepted until February 22,
2008, at 5 p.m.

ADDRESSES: Comments may be sent by
any of the following methods, mail: Kate
Michie, NMFS, Southeast Regional
Office, 263 13th Avenue South, St.

Petersburg, FL 33701; phone: 727-824-
5305; fax: 727-824-5308; e-mail: 0648-XE88@noaa.gov. Scoping documents are
available from the Council's Web site at
www.safmc.net.

SUPPLEMENTARY INFORMATION: Fisheries
of the South Atlantic region in the
exclusive economic zone are managed
under their respective FMPs. The
Magnuson-Stevens Fishery
Conservation and Management Act
requires the Councils to establish
annual catch limits (ACLs) that will
limit harvest and prevent overfishing.
To establish sector specific ACLs, the
Council would need to allocate the total
allowable catch between recreational
and commercial sectors. In addition, the
Council could consider a separate
allocation for the for-hire sector such
that there could be three sectors with
allocations: commercial; for-hire
(charters, headboats and guides); and
private recreational.

This NOI is intended to inform the
public of the preparation of a DEIS in
support of a Comprehensive
Amendment to the Council's FMPs to
address allocations. Options suggested
thus far for determining sector
allocations include: use of historical
landings; examination of relative
catches by each sector and projection of
future demand; and detailed social and
economic analyses.

Following consideration of public
scoping comments, the Council plans to
begin preparation of the draft
Comprehensive Allocation Amendment/
DEIS in March 2008. The Council and
its Scientific and Statistical Committee
will review the draft Comprehensive
Allocation Amendment/DEIS in 2008. If
the Council approves the document,
public review will take place in
November 2008.

A **Federal Register** notice will
announce the availability of the DEIS
associated with this amendment, as well
as a 45-day public comment period,
pursuant to regulations issued by the
Council on Environmental Quality for
implementing the National
Environmental Policy Act and to
NOAA's Administrative Order 216-6.
The Council will consider public
comments received on the DEIS in
developing the final environmental
impact statement (FEIS), and before
voting to submit the final amendment to

NMFS for Secretarial review, approval,
and implementation. NMFS will
announce in the **Federal Register** the
availability of the final amendment and
FEIS for public review during the
Secretarial review period, and will
consider all public comments prior to
final agency action to approve,
disapprove, or partially approve the
final amendment.

Scoping Meetings, Times and Locations

All meetings will begin at 2 p.m. In
addition to the Comprehensive
Amendment, the Council intends to
scope three other amendments at this
series of meetings. Separate NOIs have
been prepared for each amendment. The
meetings will be physically accessible to
people with disabilities. Requests for
information packets or for sign language
interpretation or other auxiliary aids
should be directed to the Council (see
ADDRESSES).

ACTION: Notice of intent (NOI) to prepare a draft environmental impact statement (DEIS); notice of scoping meetings; request for comments.

SUMMARY: The South Atlantic Fishery Management Council (Council) intends to prepare a DEIS to assess the impacts on the natural and human environment of the management measures proposed in its draft Amendment 17 to the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP).

DATES: Written comments on the scope of the issues to be addressed in the DEIS will be accepted until February 22, 2008, at 5 p.m.

ADDRESSES: Comments may be sent by any of the following methods, mail: Kate Michie, NMFS, Southeast Regional Office, 263 13th Avenue South, St. Petersburg, FL 33701; phone: 727-824-5305; fax: 727-824-5308; e-mail: 0648-XE86@noaa.gov. Scoping documents are available from the Council's Web site at www.safmnc.net.

SUPPLEMENTARY INFORMATION: The snapper-grouper fishery of the South Atlantic region in the exclusive economic zone is managed under the FMP. The FMP was prepared by the Council and implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

The Council is considering specifying annual catch limits (ACLs) for all snapper-grouper species currently undergoing overfishing. Revisions to the Magnuson-Stevens Act in 2007 require that by 2010, FMPs, for fisheries determined by the Secretary to be subject to overfishing, must establish a mechanism for specifying ACLs at a level that prevents overfishing and does not exceed the recommendations of the Council's Scientific and Statistical Committees or other established peer review processes. These FMPs are also required to establish, by 2010, accountability measures for fisheries subject to overfishing.

By 2011, FMPs for all other fisheries, except fisheries for species with annual life cycles, must meet these same requirements. The Council is considering alternatives such as removing species from the fishery

management unit that are rarely captured or taken primarily in state waters. The Council is also considering assigning some species to stock complexes. Furthermore, the Council is considering extending regulations for the snapper-grouper complex into the Mid-Atlantic Fishery Management Council's jurisdiction because the northern part of the range of some snapper-grouper species occurs beyond the current jurisdiction of the Council.

This NOI is intended to inform the public of the preparation of a DEIS in support of Amendment 17 to the FMP. The DEIS will specify ACLs, establish measures to ensure accountability for species experiencing overfishing, as well as establish other measures. Following publication of this NOI, the Council will conduct public scoping meetings to determine the range of issues to be addressed in the DEIS and the associated Amendment 17.

Following consideration of public scoping comments, the Council plans to begin preparation of the draft Snapper-Grouper Amendment 17/DEIS. The Council and its Scientific and Statistical Committee will review the draft Snapper-Grouper Amendment 17/DEIS in 2008. If the Council approves the document, public review will take place in late 2008. A comment period on the DEIS is planned, which will include public hearings to receive comments. A **Federal Register** notice will announce the availability of the DEIS associated with this amendment, as well as a 45-day public comment period, pursuant to regulations issued by the Council on Environmental Quality for implementing the National Environmental Policy Act and to NOAA's Administrative Order 216-6. The Council will consider public comments received on the DEIS in developing the final environmental impact statement (FEIS), and before voting to submit the final amendment to NMFS for Secretarial review, approval, and implementation. NMFS will announce in the **Federal Register** the availability of the final amendment and FEIS for public review during the Secretarial review period, and will consider all public comments prior to final agency action to approve, disapprove, or partially approve the final amendment.

Scoping Meetings, Times, and Locations

All meetings will begin at 2 p.m. In addition to Amendment 17, the Council intends to scope three other amendments at this series of meetings. Separate NOIs have been prepared for each amendment. The meetings will be physically accessible to people with

disabilities. Requests for information packets or for sign language interpretation or other auxiliary aids should be directed to the Council (see **ADDRESSES**).
