The Commission notes that the patents at issue were the subject of earlier litigation, which raises the question of whether the complainant is precluded from asserting those patents. In instituting this investigation, the Commission has not made any determination as to whether the complainant is so precluded. Accordingly, the presiding administrative law judge may wish to consider this issue at an early date. Any such decision should be issued in the form of an initial determination (ID). The ID will become the Commission's final determination 45 days after the date of service of the ID unless the Commission determines to review the ID. Any petitions for review of the ID must be filed within ten (10) days after service thereof. Any review will be conducted in accordance with Commission Rules 210.43, 210.44, and 210.45, 19 CFR 210.43, 210.44, and 210.45.

By order of the Commission.

Issued: July 3, 2008.
