Activities associated with the Constellation Program also would occur at two Alliant Techsystems—Launch Systems Group locations in Promontory and Clearfield, Utah and at various other commercial facilities throughout the United States.

Organizationally, the Constellation Program would consist of a single Program Office at NASA's Lyndon B. Johnson Space Center which would have overall responsibility for management of the Constellation Program, and multiple Project Offices including Project Orion, Project Ares, the Ground Operations Project, the Mission Operations Project, the Lunar Lander Project, and the Extravehicular Activities Systems Project. Each Project Office would focus on specific technology and systems development and operational capabilities for the Constellation Program. As additional mission requirements are developed, additional Project Offices would be established with the responsibility to develop the systems to meet such requirements (e.g., Lunar Surface Systems and Mars Surface Systems). Collectively, these Project Offices would develop the mission systems (i.e., crew vehicles, launch vehicles, and mission hardware) and the infrastructure needed to support crewed missions to the International Space Station and human exploration of the Moon, Mars, and beyond.

NASA published a Notice of Availability (NOA) of the *Draft Constellation Programmatic Environmental Impact Statement* on August 17, 2007 (72 FR 46218). NASA mailed over 300 hard copies and/or compact disks (CDs) of the Draft PEIS to potentially interested Federal, State, and local agencies; organizations; and individuals. In addition, the Draft PEIS was made publicly available in electronic format on NASA's Web site. NASA also sent electronic mail (e-mail) notifications to potentially interested individuals who had submitted scoping

comments via e-mail but who had not provided a mailing address.

The public review and comment period for the Draft PEIS closed on September 30, 2007. NASA received a total of 21 submissions (letters and e-mails) from Federal, State, and local agencies; organizations; and individuals, of which, 14 submissions contained comments regarding the Constellation Program. Seven submissions only requested to be added to the mailing list to receive a copy of the Final PEIS. The comments are addressed in the Final PEIS in Appendix B. No alternatives to the Proposed Action were raised during the public review of the Draft PEIS.

Jeffrey A. Parker,

Deputy Assistant Administrator for Infrastructure and Administration.
