(xix) You may take steelhead trout on Prince of Wales and Kosciusko Islands under the terms of Federal subsistence fishing permits. You must obtain a separate permit for the winter and spring seasons.

(A) The winter season is December 1 through the last day of February, with a harvest limit of two fish per household. You may use only a dip net, handline, spear, or rod and reel. The winter season may be closed when the harvest level cap of 100 steelhead for Prince of Wales/Kosciusko Islands has been reached. You must return your winter season permit within 15 days of the close of the season and before receiving another permit for a Prince of Wales/Kosciusko steelhead subsistence fishery. The permit conditions and systems to receive special protection will be determined by the local Federal fisheries manager in consultation with ADF&G.

(B) The spring season is March 1 through May 31, with a harvest limit of five fish per household. You may use only a dip net, handline, spear, or rod and reel. The spring season may be closed prior to May 31 if the harvest quota of 600 fish minus the number of steelhead harvested in the winter subsistence steelhead fishery is reached. You must return your spring season permit within 15 days of the close of the season and before receiving another

permit for a Prince of Wales/Kosciusko steelhead subsistence fishery. The permit conditions and systems to receive special protection will be determined by the local Federal fisheries manager in consultation with ADF&G.

Federal Emergency Management Agency

44 CFR Part 65

Changes in Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: Modified Base (1 % annual-chance) Flood Elevations (BFEs) are finalized for the communities listed below. These modified BFEs will be used to calculate flood insurance premium rates for new buildings and their contents.

DATES: The effective dates for these modified BFEs are indicated on the following table and revise the Flood Insurance Rate Maps (FIRMs) in effect for the listed communities prior to this date.

ADDRESSES: The modified BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT:

William R. Blanton, Jr., Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646–3151.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below of the modified BFEs for each community listed. These modified BFEs have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Mitigation Division Director of FEMA resolved any appeals resulting from this notification.

The modified BFEs are not listed for each community in this notice. However, this final rule includes the address of the Chief Executive Officer of the community where the modified BFEs determinations are available for inspection.

The modified BFEs are made pursuant to section 206 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The modified BFEs are the basis for the floodplain management measures that the community is required to either adopt or to show evidence of being already in effect in order to qualify or to remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities.

These modified BFEs are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these

buildings. The changes in BFEs are in accordance with 44 CFR 65.4.

National Environmental Policy Act. This final rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of

Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132, Federalism.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

[CG Docket No. 02-278; FCC 08-147]

Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document, the Commission amends its rules under the Telephone Consumer Protection Act (TCPA) to require telemarketers to honor registrations with the National Do-Not-Call Registry indefinitely. This action is consistent with Congress's mandate in the Do-Not-Call Improvement Act of 2007, which prohibits the removal of numbers from the Registry unless the consumer cancels the registration or the number has been disconnected and reassigned or is otherwise invalid. The Commission also will continue to coordinate with the FTC on additional ways to improve the Registry's accuracy.

DATES: 47 CFR 64.1200 (c)(2) contains information collection requirements that have not been approved by the Office of Management and Budget (OMB). The Commission will publish a separate document in the **Federal Register** announcing the effective date for the amendment and information collection requirements. Interested parties (including the general public, OMB, and other Federal agencies) that wish to submit written comments on the PRA information collection requirements must do so on or before September 12, 2008.

FCC 08-147 addresses issues arising from the Commission's *Rules and Regulations Implementing the TCPA of 1991, Do-Not-Call Registry, Notice of Proposed Rulemaking (DNC NPRM)*, FCC 07-203, released on December 4, 2007, published at 72 FR 71099, December 14, 2007, in which the Commission sought comment on its tentative conclusion that registrations with the National Do-Not-Call Registry should be honored indefinitely. Paperwork Reduction Act of 1995 Analysis

FCC 08-147 contains modified information collection requirements subject to the PRA of 1995. It will be submitted to OMB for review under section 3507 of the PRA. OMB, the general public, and other Federal agencies are invited to comment on the modified information collection requirements contained in this proceeding. Public and agency comments are due September 12, 2008.

In addition, pursuant to the Small Business Paperwork Review Act of 2002, Public Law 107-198, *see* 44 U.S.C. 3506(c)(4), the Commission has assessed the effect of rule changes and find that there likely will be an increased administrative burden on businesses with fewer than 25 employees. The Commission has taken steps, however, to minimize the information collection burden for small business concerns, including those with fewer than 25 employees. In this present document, we have assessed the effect of these rule changes and find that there likely will be an increased administrative burden on businesses with fewer than 25 employees. However, the amended rules do not require the maintenance of any additional records or require entities to alter their current practices to comply with the National Do-Not-Call Registry. These measures should substantially alleviate any burdens on businesses with fewer than 25 employees.

Synopsis

In the *DNC Report and Order*, the Commission amends its rules under the TCPA to require sellers and/or telemarketers to honor registrations with the National Do-Not-Call Registry so that registrations will not automatically expire based on the current five year registration period. Consistent with the Do Not Call Improvement Act of 2007 (DNC Act), the Commission extends this requirement indefinitely to minimize the inconvenience to consumers of having to re-register their preferences not to receive telemarketing calls and to further the underlying goal of the National Registry to protect consumer privacy rights. The Commission recognizes the importance of maintaining an accurate Do-Not-Call Registry. The DNC Act provides that the FTC shall periodically check the numbers in the Registry and purge those numbers that have been disconnected and reassigned. Currently, the database administrator checks all telephone numbers in the Registry once a month against national databases to remove any disconnected and reassigned
