

tipping point of the new owner's internal risk analysis in favor of auditing and disclosing. EPA's tracking is intended to help inform the Agency's assessment of the effectiveness of the Interim Approach and may at some point serve as a scoping element for enforcement planning.

### III. Public Process

EPA seeks public comment on the Interim Approach described in this Notice, and asks that comments be specifically aimed at improving the overall design and specific elements of the Interim Approach, as well as at addressing any relevant issues or considerations which may not appear to be reflected. The public comment docket will be open for a period of 90 days. The Agency will concurrently begin applying the Interim Approach, as EPA believes the most efficient way to effectively test this strategy, and learn from practical experience, is to implement it on an interim basis.

EPA will be reviewing public comment as it is received and will continue its dialogue with stakeholders on whether refinements to the Interim Approach are needed. In addition, the Agency will place into the public docket copies of agreements resolving violations disclosed by new owners under the Interim Approach. EPA intends to assess the effectiveness of the Interim Approach on a continual basis. Based on public comment and after the Agency has gained sufficient experience in implementing the Interim Approach, EPA will decide to finalize, revise or discontinue these tailored incentives for new owners.

EPA encourages parties of all interests, including state, tribal and local government, industry, not-for-profit organizations, municipalities, public interest groups and private citizens to comment, so that the Agency can hear from as broad a spectrum of stakeholders as possible.

### IV. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit CBI to EPA through <http://www.regulations.gov> or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI

must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for Preparing Your Comments.* When submitting comments, remember to:

- Identify the Notice and Request for Comments by docket number and other identifying information (subject heading, **Federal Register** date and page number).
- Follow directions—The Agency may ask you to respond to specific questions.
- Explain why you agree or disagree; suggest alternatives and language.
- Describe any assumptions and provide any technical information and/or data that you used.
- If possible, provide any pertinent information about the context for your comments (e.g., the size and type of acquisition transaction you have in mind).
- If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- Provide specific examples to illustrate your concerns, and suggest alternatives.
- Explain your views as clearly as possible.
- Submit your comments on time.

Dated: July 25, 2008.

### Synopsis

The applications for certification of TRS programs of the states, territories, and the District of Columbia listed below (hereinafter, "states") have been granted, pursuant to Title IV of the Americans with Disabilities Act (ADA), 47 U.S.C. 225(f)(2), and 47 CFR 64.606(b). On the basis of the state applications, the Bureau has determined that:

(1) The TRS program of the states meet or exceed all operational, technical, and functional minimum standards contained in 47 CFR 64.604;

(2) The TRS programs of the listed states make available adequate procedures and remedies for enforcing the requirements of the state program; and

(3) The TRS programs of the listed states in no way conflict with federal law.

The Bureau also has determined that, where applicable, the intrastate funding mechanisms of the listed states are labeled in a manner that promotes national understanding of TRS and does not offend the public, consistent with 47 CFR 64.606(d).

Because the Commission may adopt changes to the rules governing relay

programs, including state relay programs, the certification is conditioned on a demonstration of compliance with any additional new rules that are adopted by the Commission. The Commission will provide guidance to the states on demonstrating compliance with such rule changes.

In response to the public notice seeking comment on the applications for certification of state TRS programs, *Applications for Certification as Certified State Telecommunications Relay Service (TRS) Programs Filed; Pleading Cycle Established for Comment on Applications*, CG Docket No. 03-123,

DA 08-60, published at 73 FR 9118, February 19, 2008, the Commission received 84 comments, all of which address Speech-to-Speech (STS) outreach. As part of their applications for certification, states were required to submit specific examples of all outreach activities, including those targeted to users and receivers of STS services. We reviewed each of the outreach plans submitted by the states in conjunction with each of the applications listed below and found them to be in compliance with the Commission's requirements. The Bureau reminds states receiving certification of their continued obligation to engage in

outreach activities, or to ensure that their contracted TRS providers conduct outreach in accordance with 47 CFR 64.604(c)(3).

This certification, as conditioned, shall remain in effect for a five year period, beginning July 26, 2008, and ending July 25, 2013, pursuant to 47 CFR 64.606(c). One year prior to the expiration of this certification, beginning July 25, 2012, the states may apply for renewal of their TRS program certification by filing documentation in accordance with the 47 CFR 64.606(a) and (b). #### Synopsis

On February 28, 2008, the Commission released the *2008 Hearing Aid Compatibility First Report and Order*, which modified the Commission's hearing aid compatibility requirements applicable to providers of public mobile services and manufacturers of digital wireless handsets used in the delivery of those services. These modifications include requiring manufacturers and service providers to provide hearing aid compatibility contact information directly to the Commission for posting on the Commission's Web site. Specifically, the Commission amended 47 CFR 68.418 to require that manufacturers and service providers designate and identify one or more agents upon whom service may be made of all informal complaints, as well as notices, inquiries, orders, decisions, and other pronouncements of the Commission in any matter before the Commission. The regulations further provide that "[s]uch designation shall be provided to the Commission and shall include a name or department designation, business address, telephone number, and, if available, TTY number, facsimile number, and Internet e-mail address." Finally, the regulations require the Commission to make this information available to the public.

Apart from requiring the provision of contact information directly to the Commission, the new regulations do not otherwise change the procedures for handling complaints alleging a violation

of the Commission's hearing aid compatibility rules.
