BILLING CODE 4184-01-P

DEPARTMENT OF HOMELAND SECURITY**Federal Emergency Management Agency****Agency Information Collection Activities: Proposed Collection; Comment Request**

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice; 60-day notice and request for comments; Revision of a currently approved collection, OMB Number 1660-0008, FEMA Form 81-31, FEMA Form 81-65.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on a revised information collection. In accordance with the Paperwork Reduction Act of 1995, this notice seeks comments concerning Elevation Certificate and the Floodproofing Certificate.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP) requires the elevation or floodproofing of new or substantially improved structures in designated Special Flood Hazard Areas. As part of the agreement for making flood insurance available in a community, the NFIP requires the community to adopt a floodplain management ordinance that meets or exceeds the minimum requirements of the NFIP. Title 44 CFR parts 61.7 and 61.8 require proper investigation to estimate the risk premium rates necessary to provide flood insurance.

Collection of Information

Title: Post Construction Elevation Certificate/Floodproofing Certificate.

Type of Information Collection: Revision of a currently approved collection.

OMB Number: 1660-0008.

Form Numbers: FEMA Form 81-31, Elevation Certificate, FEMA Form 81-65, Floodproofing Certificate.

Abstract: The Elevation Certificate and Floodproofing Certificate are used in conjunction with the application for flood insurance. The certificates are required for proper rating of post Flood Insurance Rate Map (FIRM) structures, which are buildings constructed after the publication of the FIRM, for flood insurance in Special Flood Hazard Areas. In addition, the Elevation

Certificate is needed for pre-FIRM structures being rated under post-FIRM flood insurance rules. The certificates provide community officials and others standardized documents to readily record needed building elevation information. NFIP policyholders/applicants provide the appropriate certificate to insurance agents. The certificate is then used in conjunction

with the insurance application so that the building can be properly rated for flood insurance.

Affected Public: Individuals and households, Business or other for-profit, State, local or Tribal Government.

Estimated Total Annual Burden Hours: 8,245 hours.
