NUCLEAR REGULATORY COMMISSION

[Docket No. 70-143]

Notice of Receipt of an Application To Transfer the Control of Special Nuclear Materials License No. SNM-124; Opportunity To Request a Hearing and Provide Written Comments

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of receipt of license transfer application and opportunity to request a hearing.

DATES: A request for a hearing must be filed by October 9, 2008, in accordance with 10 CFR 2.309(b)(1).

FOR FURTHER INFORMATION CONTACT:

Mary T. Adams, Senior Project Manager, Fuel Manufacturing Branch, Division of Fuel Cycle Safety and Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Mail Stop EBB-2-C40M, Washington, DC 20555-0001, Telephone: (301) 492-3113; fax number: (301) 492-5539; e-mail: Mary.Adams@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

By letter dated August 8, 2008, (the Application), Nuclear Fuel Services, Inc., (NFS or the licensee) requested the consent of the U.S. Nuclear Regulatory Commission (NRC or the Commission), to the indirect transfer of Special Nuclear Materials License No. SNM-124 (SNM-124) to NOG-Erwin Holdings, Inc., and approval of a conforming amendment to SNM-124. The need for the requested consent arises from the sale by NFS Services, LLC, ("NFS Services") to NOG-Erwin Holdings, Inc., ("NOG") of NFS Services' entire interest in Nuclear Fuel Services, Inc. (the "Transaction"). Included in the

Transaction, as more fully described in the application, is the transfer by NFS Services of 100% of the stock of NFS Holdings, Inc., a Delaware corporation and its wholly-owned subsidiary, Nuclear Fuel Services, Inc. a Delaware corporation which is the holder of the License, to NOG-Erwin Holdings, Inc. ("NOG"), a newly-formed subsidiary of Babcock & Wilcox Nuclear Operations Group, Inc., a Delaware corporation, which is a wholly-owned subsidiary of BWX Technologies, Inc., a Delaware corporation, which in turn is a wholly-owned subsidiary of The Babcock & Wilcox Company, a Delaware corporation. The Transaction, if approved, will result in the indirect change of control of NFS, the holder of the License, from NFS Services to NOG.

NFS is the holder of SNM-124, which authorizes NFS to receive, possess, and use special nuclear material for the research, fabrication and assembly of nuclear fuel and related components at its facilities located in Erwin, Tennessee. The license provides, among other things, that the facilities are subject to all rules, regulations, and orders of the NRC, now or hereafter in effect. SNM-124 applies to product processing operations, laboratory operations, general services operations, research and development operations, and waste treatment and disposal operations located in Unicoi County, Tennessee.

Pursuant to Title 10 of the Code of Federal Regulations (10 CFR), Section 2.1301, the Commission is noticing in the **Federal Register** the receipt of the Application for approval of the transfer of SNM-124 because it involves a major fuel cycle facility licensed under 10 CFR Part 70. The NRC is considering the issuance of an order pursuant to 10 CFR 70.36, authorizing the transfer of control of SNM-124 from NFS to NOG-Erwin Holdings, Inc. An amendment to the existing license would follow the issuance of the order. According to the Application, NOG-Erwin Holdings, Inc., would acquire ownership of the NFS facilities and upon approval of the license transfer would be the licensee responsible for operating and maintaining them. The Application does not propose any physical changes to the facilities or other changes.

The amendment would replace references to NFS, Inc., in Section 1.1 and Appendix D to Chapter 1 of the license with references to NFS Holdings, Inc.; NOG-Erwin Holdings, Inc.; and Babcock & Wilcox Nuclear Operations Group, Inc., to reflect the transfer, if approved by the Commission.

Pursuant to 10 CFR 70.36, no license, or any right there under, shall be transferred, assigned or in any manner disposed of, either voluntarily or involuntarily, directly or indirectly, through the transfer of control of any license to any person unless the Commission shall after securing full information, find that the transfer is in accordance with the provisions of the Atomic Energy Act of 1954, as amended, and shall give its consent in writing. The Commission will approve an application for the transfer of a license and authorize the transfer of the license through the issuance of an order, if it is determined that the proposed transferee is qualified to hold the license and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

An NRC administrative review found the application acceptable to begin a technical review. If the NRC issues an order, as described above, the approval of the above requested actions will be documented in a conforming amendment to SNM-124. However, before issuing an order and approving the amendment, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended, and NRC regulations. These findings will be documented in a safety evaluation report. The license transfer request falls within the 10 CFR 51.22(c)(21), categorical exclusion criteria, so no environmental review of the proposed action is required.

II. Opportunity To Request a Hearing

The NRC hereby provides notice that this is a proceeding regarding the consideration of the issuance of an order authorizing the transfer of control of Special Nuclear Materials License No. SNM-124. In accordance with the general requirements in Subpart C of 10 CFR Part 2, as amended on January 14, 2004 (69 FR 2182), any person whose interest may be affected by this proceeding and who desires to participate as a party must file a written request for a hearing and a specification of the contentions that the person seeks to have litigated in the hearing.

A request for hearing or a petition for leave to intervene must be filed in accordance with the NRC E-Filing rule, which the NRC promulgated on August 28, 2007 (72 FR 49139). The E-Filing rule requires participants to submit and serve documents over the Internet, or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek a waiver in accordance with the procedures described below.
