

calibration tests of the potentiometers and the readouts of the flight data recorder (FDR) to the airplane manufacturer. Since the issuance of the NPRM, the Federal Aviation Administration (FAA) has determined that while a noisy or defective potentiometer may hamper the ability to access certain aircraft data in support of either an accident or incident investigation or just general maintenance activities, there is no direct effect on the aircraft's ability to be operated safely. Accordingly, the proposed rule is withdrawn.

FOR FURTHER INFORMATION CONTACT:

Todd Thompson, Aerospace Engineer, International Branch, ANM-116, Transport Airplane Directorate, FAA, 1601 Lind Avenue, SW., Renton, Washington 98057-3356; telephone (425) 227-1175; fax (425) 227-1149.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) to add a new airworthiness directive (AD), applicable to certain EMBRAER Model EMB-120 series airplanes, was published in the **Federal Register** as a second supplemental Notice of Proposed Rulemaking (NPRM) on February 1, 2005 (70 FR 5070). The proposed rule would have required repetitive calibration testing of potentiometers to detect noisy signals, replacement of only those with noisy signals, and reporting results of the calibration tests of the potentiometers and the readouts of the flight data recorder (FDR) to the airplane manufacturer. The proposed actions were intended to prevent the potentiometers that provide information on the positions of the primary flight controls to the FDR from transmitting noisy signals or becoming improperly calibrated, resulting in the transmission of incomplete or inaccurate data to the FDR.

Actions That Occurred Since the Second Supplemental NPRM Was Issued

Since the issuance of the second supplemental NPRM, the FAA has determined that while a noisy or defective potentiometer may hamper the ability to access certain aircraft data in support of either an accident or incident investigation or just general maintenance activities, there is no direct effect on the aircraft's ability to be operated safely.

On December 7, 2007, we issued Special Airworthiness Information Bulletin (SAIB) NM-08/10 to recommend calibrating, testing, and replacing certain potentiometers to the

ailerons, elevators, and rudder of the subject airplanes, which is part of the manufacturer's recommended maintenance program.

FAA's Conclusions

Upon further consideration, the FAA has determined that no unsafe condition exists. Accordingly, the proposed rule is hereby withdrawn.

Withdrawal of this second supplemental NPRM constitutes only such action, and does not preclude the agency from issuing another action in the future, nor does it commit the agency to any course of action in the future.

Regulatory Impact

Since this action only withdraws a notice of proposed rulemaking, it is neither a proposed nor a final rule and therefore is not covered under Executive Order 12866, the Regulatory Flexibility Act, or DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979).

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Safety.

The Withdrawal

Accordingly, the second supplemental notice of proposed rulemaking, Directorate Identifier 2000-NM-120-AD, published in the **Federal Register** on February 1, 2005 (70 FR 5070), is withdrawn.

Issued in Renton, Washington, on January 15, 2008.

Ali Bahrami,

Manager, Transport Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2007-29260; Airspace Docket 07-ASO-24]

Proposed Establishment of Class E Airspace; Winona, MS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This action proposes to establish Class E airspace at Winona, MS. An Area Navigation (RNAV) Global Positioning System (GPS) Standard Instrument Approach Procedures (SIAP) Runways (RWY) 03-21 has been

developed for Winona-Montgomery County Airport. As a result, controlled airspace extending upward from 700 feet Above Ground Level (AGL) is needed to contain the SIAP and for Instrument Flight Rule (IFR) operations at Winona-Montgomery County Airport. The operating status of the airport will change from Visual Flight Rules (VFR) to include IFR operations concurrent with the publication of the SIAP. This action enhances the safety and airspace management of Winona-Montgomery County Airport.

DATES: Comments must be received on or before March 17, 2008.

ADDRESSES: Send comments on this proposal to the Docket Management Facility, U.S. Department of Transportation, Docket Operations, M-30, 1200 New Jersey Ave., SE, West Building, Ground Floor, Room W12-140, Washington, DC 20590; telephone: 1-800-647-5527. You must identify the docket number FAA-2007-29260; Airspace Docket 07-ASO-24, at the beginning of your comments. You may also submit comments on the Internet at <http://www.regulations.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

An informal docket may also be examined during normal business hours at the office of the Eastern Service Center, Federal Aviation Administration, Room 210, 1701 Columbia Avenue, College Park, Georgia 30337.

FOR FURTHER INFORMATION CONTACT:

Melinda Giddens, System Support, Eastern Service Center, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305-5610.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, view or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Those wishing the FAA to acknowledge

receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2007-29260; Airspace Docket No. 07-ASO-24." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at <http://www.faa.gov> or the Federal Register's web page at <http://www.gpoaccess.gov/fr/index.html>. Persons interested in being placed on a mailing list for future NPRMs should contact the FAA's Office of Rulemaking, (202) 267-9677, to request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is considering an amendment to Part 71 of the Code of Federal Regulations (14 CFR Part 71) to establish Class E airspace at Winona, MS. Class E airspace designations for airspace areas extending upward from 700 feet or more above the surface of the earth are published in Paragraph 6005 of FAA Order 7400.9R, signed August 15, 2007, and effective September 15, 2007, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will

only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part, A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it proposes to establish Class E airspace at Winona, MS.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9R, Airspace Designations and Reporting Points, signed August 15, 2007, and effective September 15, 2007, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ASO MS E5 Winona, MS [New]

Winona-Montgomery County Airport, MS (Lat. 33°27'54" N., long. 89°43'48.8" W.)

That airspace extending upward from 700 feet above the surface within a 6.9-mile radius of Winona-Montgomery County Airport.

* * * * *

Issued in College Park, Georgia, on December 14, 2007.

Mark D. Ward,

Manager, System Support Group, Eastern Service Center.

[Docket No. FAA-2007-29361; Airspace Docket 07-AEA-5]

Proposed Amendment of Class E Airspace; Factoryville, PA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This action proposes to amend the Class E airspace area at Factoryville, PA, to accommodate a new Standard Instrument Approach Procedure (SIAP) that has been developed for Seamans Field. This proposal would enhance the safety and management of IFR operations at Seamans Field, Factoryville, PA.

DATES: Comments must be received on or before March 17, 2008.

ADDRESSES: Send comments on this proposal to the Docket Management Facility, U.S. Department of Transportation, Docket Operations, West Building Ground Floor, Room W12-140, 1200 New Jersey Ave., SE., Washington, DC 20590; telephone: 1-800-647-5527.
