

coordinated and cost efficient manner. Long-range strategic planning, consistent with other government agencies' strategic plans is necessary to address complex invasive species issues. The 2008 Plan establishes five, long-term Strategic Goals that focus Federal efforts in the areas of invasive species work related to:

- (1) Prevention;
- (2) Early Detection and Rapid Response;
- (3) Control and Management;
- (4) Restoration; and
- (5) Organizational Collaboration.

The Strategic Goals are ongoing and serve as guideposts for managing invasive species. Each Strategic Goal has an associated Strategic Action Plan with long-term Objectives and shorter-term Implementation Tasks and Performance Elements. Where practicable, Implementation Tasks define specific Performance Elements that can be used to gauge progress. Work in Research, Information and Data Management and International Cooperation (which were addressed in separate sections in the 2001 Plan) are elements critical to achieving each of the five Strategic Goals and are included in the pertinent sections of the 2008 Plan.

The 2008 Plan is not a comprehensive list of all Federal invasive species actions. It is a targeted set of priority Strategic Action Plans and Objectives that are intended to be completed in the next five years. The accomplishment of specific Implementation Tasks and Performance Elements will be dependent upon agency budgets, and in some cases, legal or regulatory changes.

Invasive species issues cannot be addressed by Federal programs and actions alone. As reflected in EO 13112, State, local, Tribal and private programs and policies are critical to success. Therefore, receiving public comment on this proposed 2008 Plan is an important component of any strategy to address and reduce the harmful impacts of invasive species.

SUPPLEMENTARY INFORMATION:

Title: Coastal Impact Assistance Program (CIAP).

OMB Control Number: 1010-0170.

Abstract: With the passage of the Energy Policy Act of 2005 (EPAct), the Minerals Management Service (MMS) was given responsibility for the Coastal Impact Assistance Program (CIAP) through the amendment of section 31 of the Outer Continental Shelf Lands Act (43 U.S.C. 1356a, Appendix A).

The CIAP recognizes that impacts from Outer Continental Shelf (OCS) oil and gas activities fall disproportionately on the coastal states and localities nearest to where the activities occur, and where associated facilities are located. The CIAP legislation appropriates money for eligible states and coastal political subdivisions for coastal restoration/improvement projects. The MMS shall disburse \$250 million to eligible producing states and coastal political subdivisions (CPSs) through a grant program. The funds
