DEPARTMENT OF COMMERCE

International Trade Administration

[A-533-823, A-834-807, A-307-820]

Continuation of Antidumping Duty Orders on Silicomanganese from India, Kazakhstan, and Venezuela

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (the Department) and the International Trade Commission (ITC) that revocation of the antidumping duty orders on silicomanganese from India, Kazakhstan, and Venezuela would likely lead to continuation or recurrence of dumping, and material injury to an industry in the United States, the Department is publishing notice of continuation of these antidumping duty orders.

DATES: *Effective Date:* November 30, 2007.

Contact Information: Douglas Kirby or Dana Mermelstein, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; *telephone:* (202) 482-3782 or (202) 482-1391, respectively.

SUPPLEMENTARY INFORMATION:

Background

The Department initiated and the ITC instituted sunset reviews of the antidumping duty orders on silicomanganese from India, Kazakhstan, and Venezuela, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). *See Initiation of Five-Year ("Sunset") Reviews*, 72 FR 42393 (April 2, 2007) (*Notice of Initiation*).

As a result of its review, the Department found that revocation of the

antidumping duty orders would likely lead to continuation or recurrence of dumping, and notified the ITC of the magnitude of the margins likely to prevail were the orders to be revoked. *See Silicomanganese from India, Kazakhstan, and Venezuela: Final Results of Expedited Five-Year ("Sunset") Review of the Antidumping Duty Orders*, 72 FR 42393 (August 2, 2007).

On November 28, 2007, the ITC determined, pursuant to section 751(c) of the Act, that revocation of the antidumping duty orders on silicomanganese from India, Kazakhstan, and Venezuela would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time. *See Silicomanganese from India, Kazakhstan, and Venezuela*; 72 FR 67965 (December 3, 2007), and USITC Publication 3963 (November 2007), (Inv. No. 731-TA-929-931) (Review).

Scope of the Orders

For purposes of these orders, the products covered are all forms, sizes and compositions of silicomanganese, except low-carbon silicomanganese, including silicomanganese briquettes, fines and slag. Silicomanganese is a ferroalloy composed principally of manganese, silicon and iron, and normally contains much smaller proportions of minor elements, such as carbon, phosphorous and sulfur. Silicomanganese is sometimes referred to as ferrosilicon manganese. Silicomanganese is used primarily in steel production as a source of both silicon and manganese. Silicomanganese generally contains by weight not less than 4 percent iron, more than 30 percent manganese, more than 8 percent silicon and not more than 3 percent phosphorous.

Silicomanganese is properly classifiable under subheading 7202.30.0000 of the Harmonized Tariff Schedule of the United States (HTSUS). Some silicomanganese may also be classified under HTSUS subheading 7202.99.5040.

The low-carbon silicomanganese excluded from this scope is a ferro alloy with the following chemical specifications: minimum 55 percent manganese, minimum 27 percent silicon, minimum 4 percent iron, maximum 0.10 percent phosphorus, maximum 0.10 percent carbon and maximum 0.05 percent sulfur. Low-carbon silicomanganese is used in the manufacture of stainless steel and special carbon steel grades, such as motor lamination grade steel, requiring a very low carbon content. It is

sometimes referred to as ferromanganese-silicon. Low-carbon silicomanganese is classifiable under HTSUS subheading 7202.99.5040. This scope covers all silicomanganese, regardless of its tariff classification. Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope remains dispositive.

Continuation of Orders

As a result of the determinations by the Department and the ITC that revocation of the antidumping duty orders would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the antidumping duty orders on silicomanganese from India, Kazakhstan, and Venezuela. U.S. Customs and Border Protection will continue to collect antidumping duty cash deposits at the rates in effect at the time of entry for all imports of subject merchandise.

The effective date of continuation of these orders will be November 30, 2007. Pursuant to sections 751(c)(2) and 751(c)(6)(A) of the Act, the Department intends to initiate the next five-year review of these orders not later than October 2012.

This five-year (sunset) review and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act.

Dated: December 10, 2007.

David M. Spooner,

Assistant Secretary for Import Administration.
