Title: Financial Status and Program Performance Final Report for State and Partnership for the Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP).

Frequency: One time.

Affected Public: Not-for-profit institutions; State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Burden Hours: 6,125.

Abstract: The purpose of this information collection is to determine whether recipients of GEAR UP have made substantial progress towards meeting the objectives of their respective projects, as outlined in their grant applications and/or subsequent work plans. In addition, the final report will enable the Department to evaluate each grant project's fiscal operations for the entire grant performance period, and compare total expenditures relative to federal funds awarded, and actual cost-share/matching relative to the total amount in the approved grant application. This report is a means for grantees to share the overall experience of their projects and document achievements and concerns, and describe effects of their projects on participants being served; project barriers and major accomplishments; and evidence of sustainability. The report will be GEAR UP's primary method to collect/analyze data on

students' high school graduation and immediate college enrollment rates.

Abstract: Section 200.83 of the regulations for title I, part C establish the minimum requirements an SEA must meet for development of a comprehensive needs assessment and plan for service delivery as required under section 1306(b) of the Elementary and Secondary Education Act (ESEA), as amended (Pub. Section 200.84 of the regulations establish the minimum requirements the SEA must meet to implement the program evaluation required under section 1304(c)(2) of the Elementary and Secondary Education Act (ESEA). Section 200.88 of the regulations clarify that, for the purposes of the MEP, only "supplemental" State or local funds that are used for programs specifically

designed to meet the unique needs of migratory children can be excluded in terms of determining compliance with the “comparability” and “supplement”, not “supplant” provisions of the statute.

SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC-603 “Critical Energy Infrastructure Information” (OMB No. 1902-0197) is used by the Commission to implement procedures

for gaining access to critical energy infrastructure information (CEII) that would not otherwise be available under the Freedom of Information Act (5 U.S.C. 552). On February, 21, 2003, the Commission issued Order No. 630 (66 FR 52917) to address the appropriate treatment of CEII in the aftermath of the September 11, 2001 terrorist attacks and to restrict unrestrained general access due to the ongoing terrorism threat. These steps enable the Commission to keep sensitive infrastructure information out of the public domain, decreasing the likelihood that such information could be used to plan or execute terrorist attacks. The process adopted in Order No. 630 is a more efficient alternative for handling requests for previously public documents than FOIA. The Commission has defined CEII to include information about “existing or proposed critical infrastructure that (i) relates to the production, generation, transportation, transmission, or distribution of energy; (ii) could be useful to a person planning an attack on critical infrastructure; (iii) is exempt from mandatory disclosure under the Freedom of Information Act, and (iv) does not simply give the location of the critical infrastructure. Critical infrastructure means existing and proposed systems and assets, whether physical or virtual, the incapacity or destruction of which would negatively affect security, economic security, public health or safety, or any combination of those matters. A person seeking access to CEII may file a request for that information by providing information about their identity and reason as to the need for the information. Through this process, the Commission is able to review the requester's need for the information against the sensitivity of the information. The compliance with these requirements is mandatory.

Action: The Commission is requesting a three-year extension of the current expiration date, with changes to the existing collection of data. Specifically, the Commission seeks information on business references to assist in identification of the requester, and on the payment of fees for CEII requests and in particular the requester's obligation for payment.

Burden Statement: Public reporting burden for this collection is estimated as:
