

requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting*: At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

4. *Performance Measures*: Under the Government Performance and Results Act of 1993 (GPRA), the Secretary has established the following five performance measures for assessing the effectiveness of this program. Grantees funded under this competition will be expected to collect and report to the Department data related to these measures. Applicants should discuss in the application narrative how they propose to collect these data. These GPRA performance measures are (1) the percentage of female students served by the WEEA program who achieve proficiency on State mathematics assessments; (2) the percentage of female students served by the WEEA program who achieve advanced proficiency on State mathematics assessments; and/or (3) the percentage of female students served by the WEEA program who achieve proficiency on State science assessments; (4) the percentage of female students served by the WEEA program who achieve advanced proficiency on State science assessments; and (5) the percentage of WEEA projects whose female participants demonstrate statistically significant higher mean increases in achievement compared to mean increases of a comparison group, based on pre- and post-test data.

All applicants will be expected to collect and report data for GPRA performance measure 5. Applicants will be expected to collect and report data on measures 1 through 4 based upon the absolute priority addressed in their application and the targeted proficiency level. For example, if the applicant proposes to develop a program that

focuses on helping students achieve proficiency on State mathematics assessments, data would be collected and reported only on GPRA performance measures 1 and 5. Applicants should discuss in the application narrative how they propose to collect these data.

Notes for the GPRA measures: If the applicant uses an instrument other than assessments used for No Child Left Behind of 2001 (NCLB) purposes or for other State-level assessments, the applicant is encouraged to demonstrate that the instrument is both of the following:

(1) Valid for the subject and age range of students included in the project. Validity is the extent to which the test measures what it was supposed to (e.g. mathematics aptitude). There are several types of validity including content, construct, and predictive validity. Evidence of validity is often available from the publisher of the assessment instrument.

(2) Reliable with regard to the consistency and repeatability of measurement. Several types of reliability are routinely established, including the internal consistency of an instrument (how well different items on an instrument measure the same construct) and test/retest reliability (the consistency of measurement at two different points in time). Evidence of reliability is often available from the publisher of the assessment instrument.

Applicants should adhere to the following criteria when constructing a comparison group for reporting on the fifth GPRA measure. The comparison group should (1) match WEEA participants on a baseline measure of the achievement outcome, baseline demographics, or both; (2) be a group of no less than 20 students, and should be a group whose size is no less than 50 percent of the number of project participants; and (3) not receive WEEA project services.

For GPRA purposes, "proficiency" and "advanced proficiency" are defined as follows: (1) "Proficiency" is defined as the State standard for "proficient" for the purposes of NCLB-reporting, or its equivalent for standardized State tests; and (2) "Advanced proficiency" is defined as the State standard for "advanced proficient" for purposes of NCLB-reporting, or its equivalent for standardized State tests.

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at 202–564–7146.

An explanation of the ratings assigned to draft Environmental Impact Statements (EISs) was published in **Federal Register** dated April 6, 2008 (73 FR 19833).
