

IV. Records To Be Matched

SSA will conduct the matching of tenant SSNs and additional identifiers (surnames and dates of birth) to tenant data that HUD supplies from its systems of records known as the Tenant Rental Assistance Certification System (TRACS) (HUD/H-11) and the *Inventory Management System (IMS)*, formerly known as the *Public and Indian Housing Information Center (PIC)* (HUD/PIH-4). Program administrators utilize the form HUD-50058 module within the PIC system and the form HUD-50059 module within the TRACS to provide HUD with the tenant data.

SSA will match the tenant records included in HUD/H-11 and HUD/PIH-4 to their systems of records known as SSA's *Master Files of Social Security Number Holders, and SSN Applications* (60-0058), *Master Beneficiary Record* (60-0090), and *Supplemental Security Income Record* (60-103). The notice for these systems was published at 71 FR 1795 on January 11, 2006. HUD will place the resulting matched data into its *Enterprise Income Verification (EIV) system* (HUD/PIH-5). The notice for this system was initially published at 70 FR 41780 on July 20, 2005, and amended on August 8, 2006 (71 FR 45066) to reflect changes in the following categories (sections): Individuals Covered by the System, Records in the System, Authority for Maintenance of the System, Purpose of the System and the Routine Uses. The tenant records (one record for each family member) include these data elements: full name, SSN, and date of birth.

HUD data will also be matched to the SSA's *Master Files of Social Security Number Holders, and SSN Applications* (60-0058) for the purpose of validating SSNs of borrowers and co-borrowers of FHA mortgages and participants of HUD rental assistance programs to identify noncompliance with program eligibility requirements. The Computerized Homes Underwriting Management System (HUD/H-5), published at 57 FR 62142 on December 29, 1997 is the HUD FHA system of records used to match data transferred from SSA's Master Files of Social Security Number Holder and SSN Applications (60-0058) to the HUD mainframe. Mortgagees enter SSN data and review the returning verification/failure data through the FHA Connection. HUD will compare tenant SSNs provided by POAs to reveal duplicate SSNs and potential duplicate rental assistance.

V. Period of the Match

The computer matching program will be conducted according to the computer

matching agreement between HUD and the SSA. The computer matching agreement for the planned matches will terminate either when the purpose of the computer matching program is accomplished, or 18 months from the date the agreement is signed, whichever comes first. The agreement may be extended for one 12-month period, with the mutual agreement of all involved parties, if the following conditions are met:

(1) Within three months of the expiration date, all Data Integrity Boards review the agreement, find that the program will be conducted without change, and find a continued favorable examination of benefit/cost results; and (2) All parties certify that the program has been conducted in compliance with the agreement.

The agreement may be terminated, prior to accomplishment of the computer matching purpose or 18 months from the date the agreement is signed (whichever comes first), by the mutual agreement of all involved parties within 30 days of written notice.

Dated: March 3, 2009.

Lynn Allen,

Acting Chief Information Officer.
