

the applicant organization have the necessary experience and organizational capacity to carry out all five goals of the project? Are the proposed project management and staffing plans realistic and sufficient to complete the project within the 12-month time frame? 3. Project Management/Administration (25%). Does the applicant identify reasonable objectives, milestones, and measures to track progress? If consultants and/or partnerships are proposed, is there a reasonable justification for their inclusion in the project and a clear structure to insure effective coordination? Is the proposed budget realistic, provide sufficient cost detail/narrative, and represent good value relative to the anticipated results?

Note: NIC will NOT award a cooperative agreement to an applicant who does not have a Dun and Bradstreet Database Universal Number (DUNS) and is not registered in the Central Contractor Registry (CCR).

A DUNS number can be received at no cost by calling the dedicated toll-free DUNS number request line at 1-800-333-0505 (if you are a sole proprietor, you would dial 1-866-705-5711 and select option 1).

Registration in the CCR can be done online at the CCR Web site: <http://www.ccr.gov>. A CCR Handbook and work sheet can also be reviewed at the Web site.

Number of Awards: One.

NIC Opportunity Number: 09PEI25. This number should appear as a reference line in the cover letter, where the opportunity number is requested on the Standard Form 424, and outside of the envelope in which the application is sent.

Catalog of Federal Domestic Assistance Number: 16.602 Executive Order 12372: This program is not subject to the provisions of Executive Order 12372.

Morris L. Thigpen,

Director, National Institute of Correction.

BILLING CODE 4410-36-M

DEPARTMENT OF LABOR

Office of the Secretary

Submission for OMB Review: Comment Request

March 31, 2009.

The Department of Labor (DOL) hereby announces the submission of the following public information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with

the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35). A copy of this ICR, with applicable supporting documentation; including among other things a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained from the RegInfo.gov Web site at <http://www.reginfo.gov/public/do/PRAMain> or by contacting Darrin King on 202-693-4129 (this is not a toll-free number)/e-mail: DOL_PRA_PUBLIC@dol.gov.

Interested parties are encouraged to send comments to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the Bureau of Labor Statistics (BLS), Office of Management and Budget, Room 10235, Washington, DC 20503, *Telephone:* 202-395-7316/*Fax:* 202-395-6974 (these are not toll-free numbers), *E-mail:* OIRA_submission@omb.eop.gov within 30 days from the date of this publication in the **Federal Register**. In order to ensure the appropriate consideration, comments should reference the OMB Control Number (*see below*).

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Bureau of Labor Statistics.

Type of Review: Extension without change of a currently approved collection.

Title of Collection: Labor Market Information (LMI) Cooperative Agreement.

OMB Control Number: 1220-0079.

Affected Public: State Workforce Agencies in the 50 State Governments, the District of Columbia, Puerto Rico, Virgin Islands, and Guam.

Total Estimated Number of Respondents: 54.

Total Estimated Annual Burden Hours: 788.

Total Estimated Annual Costs Burden: \$0.

Description: The LMI Cooperative Agreement (CA) includes all information needed by the State Workforce Agencies to apply for funds to assist them in operating one or more of the five LMI programs operated by the Bureau of Labor Statistics, and, once awarded, report on the status of obligation and expenditure of funds, as well as close out the Cooperative Agreement. For additional information, see related notice published at Vol. 74 FR 464 on January 6, 2009.

Darrin A. King,

Departmental Clearance Officer.

BILLING CODE 4510-24-P

NATIONAL SCIENCE FOUNDATION

Committee Management; Renewal

The NSF management officials having responsibility for the Advisory Committee for International Science and Engineering, #25104 have determined that renewing the committee for another two years is necessary and in the public interest in connection with the performance of duties imposed upon the Director, National Science Foundation by 42 U.S.C. 1861 *et seq.* This determination follows consultation with the Committee Management Secretariat, General Services Administration.

The effective date for renewal will be April 17, 2009. For more information contact Susanne Bolton at (703) 292-7488.

Dated: March 30, 2009.

Susanne E. Bolton,

Committee Management Officer.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-302; NRC-2009-0039]

Crystal River Unit 3 Nuclear Generating Plant; Notice of Intent To Prepare an Environmental Impact Statement and Conduct Scoping Process

Florida Power Corporation (FPC) has submitted an application for renewal of Facility Operating License No. DPR-72 for an additional 20 years of operation at the Crystal River Unit 3 Nuclear Generating Plant (CR-3). CR-3 is located approximately 35 miles southwest of Ocala, Florida.

The operating license for CR-3 expires on December 3, 2016. The application for renewal, dated December 16, 2008, was submitted pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) part 54. A notice of receipt and availability of the application, which included the environmental report (ER), was published in the **Federal Register** on February 4, 2009 (74 FR 6060). A notice of acceptance for docketing of the application for renewal of the facility operating license was published in the **Federal Register** on March 9, 2009. The purpose of this notice is to inform the public that the U.S. Nuclear Regulatory Commission (NRC) will be preparing an environmental impact statement (EIS) related to the review of the license renewal application and to provide the public an opportunity to participate in the environmental scoping process, as defined in 10 CFR 51.29. In addition, as outlined in 36 CFR 800.8, "Coordination with the National Environmental Policy Act," the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act in meeting the requirements of the National Environmental Policy Act of 1969 (NEPA).

In accordance with 10 CFR 51.53(c) and 10 CFR 54.23, FPC submitted the ER as part of the application. The ER was prepared pursuant to 10 CFR part 51 and is publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The Accession Number for the ER is ML090080053. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR reference staff by telephone at 1-800-397-4209, or 301-415-4737, or by e-mail at pdr.resource@nrc.gov. The ER may also be viewed on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/crystal-river.html>. In addition, the ER is available for public inspection near the CR-3 at the public library: Coastal Region Library, 8619 W. Crystal St., Crystal River, FL 34428-4468.

This notice advises the public that the NRC intends to gather the information necessary to prepare a plant-specific supplement to the Commission's "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants," (NUREG-1437) related

to the review of the application for renewal of the CR-3 operating license for an additional 20 years. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources. The NRC is required by 10 CFR 51.95 to prepare a supplement to the GEIS in connection with the renewal of an operating license. This notice is being published in accordance with NEPA and the NRC's regulations found in 10 CFR part 51.

The NRC will first conduct a scoping process for the supplement to the GEIS and, as soon as practicable thereafter, will prepare a draft supplement to the GEIS for public comment. Participation in the scoping process by members of the public and local, State, Tribal, and Federal government agencies are encouraged. The scoping process for the supplement to the GEIS will be used to accomplish the following:

- a. Define the proposed action which is to be the subject of the supplement to the GEIS.
- b. Determine the scope of the supplement to the GEIS and identify the significant issues to be analyzed in depth.
- c. Identify and eliminate from detailed study those issues that are peripheral or that are not significant.
- d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to, but are not part of, the scope of the supplement to the GEIS being considered.
- e. Identify other environmental review and consultation requirements related to the proposed action.
- f. Indicate the relationship between the timing of the preparation of the environmental analyses and the Commission's tentative planning and decision-making schedule.
- g. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the supplement to the GEIS to the NRC and any cooperating agencies.
- h. Describe how the supplement to the GEIS will be prepared, and include any contractor assistance to be used.

The NRC invites the following entities to participate in scoping:

- a. The applicant, Florida Power Corporation.
- b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved, or that is authorized to develop and enforce relevant environmental standards.
- c. Affected State and local government agencies, including those

authorized to develop and enforce relevant environmental standards.

d. Any affected Indian tribe.

e. Any person who requests or has requested an opportunity to participate in the scoping process.

f. Any person who has petitioned or intends to petition for leave to intervene.

In accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC has decided to hold public meetings for the CR-3 license renewal supplement to the GEIS. The scoping meetings will be held at the Plantation Inn, 9301 W Fort Island Trail, Crystal River, FL 34429, on April 16, 2009. There will be two sessions to accommodate interested parties. The first session will convene at 2 p.m. and will continue until 5 p.m., as necessary. The second session will convene at 7 p.m. with a repeat of the overview portions of the meeting and will continue until 10 p.m., as necessary. Both meetings will be transcribed and will include: (1) An overview by the NRC staff of the NEPA environmental review process, the proposed scope of the supplement to the GEIS, and the proposed review schedule; and (2) the opportunity for interested government agencies, organizations, and individuals to submit comments or suggestions on the environmental issues or the proposed scope of the supplement to the GEIS. Additionally, the NRC staff will host informal discussions one hour prior to the start of each session at the same location. No formal comments on the proposed scope of the supplement to the GEIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meetings or in writing, as discussed below. Persons may register to attend or present oral comments at the meetings on the scope of the NEPA review by contacting the NRC Project Manager, Elaine Keegan, by telephone at 1-800-368-5642, extension 8517 or by e-mail at elaine.keegan@nrc.gov no later than April 9, 2009. Members of the public may also register to speak at the meeting within 15 minutes of the start of each session. Individual oral comments may be limited by the time available, depending on the number of persons who register. Members of the public who have not registered may also have an opportunity to speak, if time permits. Public comments will be considered in the scoping process for the supplement to the GEIS. Elaine Keegan will need to

be contacted no later than April 9, 2009, if special equipment or accommodations are needed to attend or present information at the public meeting, so that the NRC staff can determine whether the request can be accommodated.

Members of the public may send written comments on the environmental scope of the CR-3 license renewal review to: Chief, Rulemaking and Directives Branch, Division of Administrative Services, Office of Administration, Mailstop TWB 5B-01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. To be considered in the scoping process, written comments should be postmarked by May 15, 2009. Electronic comments may be sent by e-mail to the NRC at crystalrivereis@nrc.gov, and should be sent no later than May 15, 2009, to be considered in the scoping process. Comments will be available electronically and accessible through ADAMS at <http://adamswebsearch.nrc.gov/dologin.htm>.

Participation in the scoping process for the supplement to the GEIS does not entitle participants to become parties to the proceeding to which the supplement to the GEIS relates. Notice of opportunity for a hearing regarding the renewal application is also included in this **Federal Register**. Matters related to participation in any hearing are outside the scope of matters to be discussed at this public meeting.

At the conclusion of the scoping process, the NRC will prepare a concise summary of the determination and conclusions reached, including the significant issues identified, and will send a copy of the summary to each participant in the scoping process. The summary will also be available for inspection in ADAMS at <http://adamswebsearch.nrc.gov/dologin.htm>. The staff will then prepare and issue for comment the draft supplement to the GEIS, which will be the subject of separate notices and separate public meetings. Copies will be available for public inspection at the above-mentioned addresses, and one copy per request will be provided free of charge. After receipt and consideration of the comments, the NRC will prepare a final supplement to the GEIS, which will also be available for public inspection.

Information about the proposed action, the supplement to the GEIS, and the scoping process may be obtained from Elaine Keegan at the aforementioned telephone number or e-mail address.

Dated at Rockville, Maryland, this 31st day of March, 2009.

For the Nuclear Regulatory Commission.

David J. Wrona,

Chief, Projects Branch 2, Division of License Renewal, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-123; NRC-2009-0139]

Missouri University of Science and Technology Research Reactor; Notice of Issuance of Renewed Facility License No. R-79

The U.S. Nuclear Regulatory Commission (NRC or the Commission) has issued renewed Facility License No. R-79, held by the Board of Curators of the University of Missouri (the licensee), which authorizes continued operation of the Missouri University of Science and Technology Research Reactor (MSTR), located on the Missouri University of Science and Technology (MST) campus at Rolla City, Phelps County, MO. The MSTR is a pool-type, light-water-moderated-and-cooled research reactor licensed to operate at a steady-state thermal power level of 200 kilowatts thermal. Renewed Facility License No. R-79 will expire at midnight 20 years from its date of issuance.

The renewed license complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's regulations in Title 10, Chapter 1, "Nuclear Regulatory Commission," of the Code of Federal Regulations (10 CFR Chapter 1), and sets forth those findings in the renewed license. The NRC afforded an opportunity for hearing in the Notice of Opportunity for Hearing published in the **Federal Register** on December 31, 2007, at 72 FR 74350. The NRC received no request for a hearing or petition for leave to intervene following this notice.

The NRC staff prepared a safety evaluation report for the renewal of Facility License No. R-79 and concluded, based on that evaluation, that the licensee can continue to operate the facility without endangering the health and safety of the public. The NRC staff also prepared an environmental assessment for license renewal, noticed in the **Federal Register** on March 30, 2009 (7X FR 14163), and concluded,

based on that assessment, that renewal of the license will not have a significant impact on the quality of the human environment.

The NRC maintains the Agencywide Documents Access and Management System (ADAMS), which provides text and image files of the NRC's public documents. For details with respect to the application for renewal, see the licensee's letter dated August 30, 2004 (ADAMS Accession No. ML042820116), as supplemented by letters dated November 16, 2007 (ADAMS Accession No. ML073240523), November 27, 2007 (ADAMS Accession No. ML073320467), December 26, 2007 (ADAMS Accession No. ML080070088), January 17, 2008 (ADAMS Accession No. ML080240307), March 6, 2008 (ADAMS Accession No. ML080930439), June 26, 2008 (ADAMS Accession No. ML081820410), September 16, 2008 (ADAMS Accession No. ML082630565), and November 7, 2008 (ADAMS Accession No. ML083190529). The NRC requested additional information on November 16, 2007 (ADAMS Accession No. ML072340514), May 12, 2008 (ADAMS Accession No. ML081270024), and September 8, 2008 (ADAMS Accession No. ML082460561). For details with respect to the issuance of the renewed facility license, see renewed Facility License No. R-79 (ADAMS Accession No. ML090140511) including the related safety evaluation report dated March 30, 2009, the related technical specifications dated March 24, 2009 (ADAMS Accession No. ML090140520), and the related environmental assessment dated March 20, 2009 (ADAMS Accession No. ML080290156). Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, MD. Publicly available records are accessible electronically from the ADAMS Public Electronic Reading Room on the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC PDR reference staff at 1-800-397-4209 or 301-415-4737, or send an e-mail to pdr@nrc.gov.

Dated at Rockville, MD, this 30th day of March, 2009.

For the Nuclear Regulatory Commission.

Kathryn M. Brock,

Chief, Research and Test Reactors Branch A, Division of Policy and Rulemaking, Office of Nuclear Reactor Regulation.
